

Subject: REACH SVHC Evaluation – Candidate List 253

Dear Valued Customer,

This letter provides an update regarding compliance with Regulation (EC) No. 1907/2006 (REACH).

REACH requires registration of substances in articles only where the substance is intended to be released under normal or reasonably foreseeable conditions of use and exceeds applicable tonnage thresholds (Article 7). Marmon Defense has determined that substances contained within our products are not intended to be released during normal use; therefore, registration under Article 7 is not required.

In accordance with REACH Article 33, Marmon Defense has evaluated its products against the current ECHA SVHC Candidate List (253 substances). Based on available compositional data and supplier information, SVHC compliance by product group (0.1% w/w threshold) is summarized in the table below.

Compliant Product Groups SVHC < 0.1% w/w	Exceptions None, unless otherwise noted below
UL	
CSA	
NEMA HP	HP6 series ¹
M16878	
M17	
M22759	
M24640	
M24643	Slants: /24 ¹ , /25 ¹ , and /26 ¹
M27500	
M5086	
M55021	
M81044	
M81822	
M85045	
M8777	
Note 1: Certain constructions require use of silicone rubber jackets, and they are associated with CAS 556-67-2 in concentrations exceeding 0.1% w/w	

Certain custom-designed products, manufactured to customer-specific requirements, may also contain substances included on the SVHC Candidate List. Due to design variability, REACH SVHC compliance for custom parts is assessed on a part-number-specific basis. Customers requiring disclosure for custom items should contact Marmon Defense directly.

Sincerely,

Oscar Castellanos
