RE: MSDS for Manufactured Product  
January 1, 2013

Marmon Aerospace & Defense manufactures wire and cable for the aerospace and defense industries. Products manufactured by Marmon are defined as “Articles” by 29CFR1910.1200(c). Under normal use, our manufactured products will not release or result in any exposure to hazardous chemicals. Such “Articles” are exempted from MSDS labeling and notification requirements by 29CFR1910-1200(b)(6)(iv). We therefore do not distribute Material Safety Data Sheets for products (“Articles”) that we manufacture based on evaluations made by our company.

Providing MSDS for the constituent raw materials shall be considered on a case by case basis based on the proprietary nature of the materials used in our processes.

Sincerely,

Bill Wood  
Senior Application Engineer
