MAKE EVERY DAY A SAFE DAY™

Make better, more informed buying decisions with the help of Volk’s Technical Support Specialists.

Partner with us! Our people – from our experienced inside support staff to our regional field groups – are committed to providing excellent products, timely service, thorough product knowledge, and help in reducing your overall costs.

We’re here to help. We know that worker injuries or even one case of foodborne illness can have a financial snowball effect. At Volk Protective Products, our first priority and main goal is protecting your customers, your workers, and your bottom line!

Founded in 1988 as WorkWell and acquired by Volk Enterprises in 1995, the company name of Volk Protective Products was adopted in 2003, allowing us to share the strong brand equity of our parent company. We combine the best practices of both companies and market value to the food processing, foodservice, industrial safety, and janitorial/sanitation industries.

Our goal is to always surpass our customers’ expectations. You’ll find that our dedication to food and worker safety —

and saving you money — hasn’t changed. We provide a vast array of products that ensure complete and safe barrier protection as well as worker safety.

Browse through these pages to find the best solutions for food and personal safety, affordability, and convenience. If you have a particular situation that we have not addressed, please contact us so that we may provide a more specific solution. Toll free: 800-856-2852.

Dispense Safe™ Glove Dispensing Systems

- Newly designed dispenser is:
- 1) Made in the USA; ask about small, custom production runs!
 - 2) New internal tabs keep glove boxes more secure when loaded, ensuring one-at-a-time glove dispensing!
 - 3) Smaller! Less wall space without compromising performance.

Start with premium Clean Hand® quality gloves.

- Made of premium materials in ISO 9002 quality plants
- Maintain uniform quality, sizing, and performance

Improve efficiency.

- Wall mounted dispensers free up counter space
- Reduces clutter around work areas and handwashing stations in nurseries, food prep zones, medical facilities, first response, and more.

Save money.

- Patented design assures one-at-a-time dispensing, reducing waste
- Enclosed dispensers reduce employee theft, lowering usage
- Wall-mounted dispensers reduce loss from boxes falling on floor or sitting on wet counters

Reduce risk.

- Increase safety and health awareness
- Fully enclosed dispensers reduce chance of contamination
- Assure employees of your commitment to food safety
- Easy access to gloves helps increase employee compliance

71102 Cream polypropylene dispenser, 10 each per case

Clean Hand® Latex Refill

- 61076 Powdered latex, 100 count
- 61075 Powder-free latex, 100 count

Health Hand® Latex Refill

- 91079 Powder-free exam-grade latex, 100 count

Clean Hand® Vinyl Refill

- 81078 Powdered vinyl, 100 count
- 81077 Powder-free vinyl, 100 count

Clean Hand® Blue Vinyl Refill

- 71070 Powdered vinyl, 100 count

SuperStretch™ Vinyl Refill

- 81075 Powder-free SuperStretch vinyl , 100 count

Health Hand® Vinyl Refill

- 81080 Powder-free exam-grade vinyl, 100 count

Clean Hand® Nitrile Refill

- 60007 Powder-free nitrile, 100 count
- 60009 Black Powder-free nitrile, 100 count
- 60001 Blue Powder-free nitrile, 100 count, 5-mil

Health Hand® Nitrile Refill

- 60006 Powder-free exam-grade nitrile, 100 count

Single-use gloves and proper handwashing go hand-in-hand. Before handling any food, wash hands thoroughly and put on clean gloves. Remove and discard gloves after handling raw food. Wash hands again and put on clean gloves before handling ready-to-eat food.

74102 Cream polypropylene dispenser, 8" x 9", 20 each per case

Clean Hand® Poly Refill

- 73073 Embossed polyethylene, 1 mil., 100 count

CLEANER
Fully enclosed dispensers reduce contamination by eliminating glove boxes on counters which get wet and dirty—becoming breeding grounds for dangerous bacteria. Plus, Volk's Dispense Safe™ system keeps right-type, fresh, clean gloves convenient to each prep area and washing station, increasing employee compliance.

MORE EFFICIENT
Wall-mounted dispensers improve efficiency by freeing up counter space. This space-saving benefit is second only to the economic efficiency that one-at-a-time dispensing affords by reducing waste.

Never wash or reuse disposable gloves. Change to a clean pair every time you change foodhandling or exam tasks, touch your skin or hair, handle money, or use the restroom. Gloves should fit properly to allow dexterity and comfort.

Latex Disposables

Latex offers excellent durability, elasticity, and chemical resistance, making it one of the best barrier protectors. Our Clean Hand® and Health Hand® latex gloves provide very good resistance to most common chemicals as well as excellent tensile strength and durability. Best-in-class elasticity results in a perfect fit and long-wearing comfort. Latex allergies are an important concern. Call Volk customer service for questions regarding latex allergies or visit www.volkprotectiveproducts.com.

Clean Hand® Latex

Health Hand® Latex*

No.	Description	Size	Box/Glove ct	Dispenser options
Clean Hand® Latex				
61075	General Purpose, powder-free, rolled cuff	S, M, L, XL	10 bxs/100 ea.	71102
61076	General Purpose, powdered, rolled cuff	S, M, L, XL	10 bxs/100 ea.	71102

Health Hand® Latex*				
91079	Exam-grade, powder-free, rolled cuff	S, M, L, XL	10 bxs/100 ea.	71102

* Meets ASTM STD D-3578-01 for exam quality.

Vinyl Disposables

As a leader in food safety, Volk Protective Products' vinyl gloves are California Prop 65 compliant. We transitioned away from using DINP to a non-DINP plasticizer (the chemicals used to affect the natural rigidity of plastic, softening it for use in everything from raincoats to rubber balls to safety gloves). Made of latex-free synthetic material, vinyl gloves are an ideal substitute for people with latex-sensitivity. Vinyl is also an affordable solution for applications requiring regular glove change-out including examination, janitorial, sanitation, and foodservice environments.

No.	Description	Size	Box/Glove ct	Dispenser options

SuperStretch™ Vinyl				
81075	SuperStretch; powder-free; rolled cuff;	S, M, L, XL	10 bxs/100 ea.	71102

Clean Hand® Vinyl

Health Hand® Vinyl*

SuperStretch Vinyl

Traditional vinyl gloves are more easily torn and therefore provide less protection than naturally elastic latex. But SuperStretch™ vinyl is a synthetic option that combines the comfort and tactile sensitivity of latex with higher tensile strength and tear-resistance when compared to traditional vinyl gloves.

To prevent the contamination of food and food-contact surfaces, foodservice managers must train and enforce good hygiene practices. First, review with employees the ways they can contaminate food. Second, review with your employees the components of a good personal hygiene program. Clean Hand® gloves are an integral part of your hand-washing and hygiene program.

Nitrile Disposables

Nitrile gloves provide excellent resistance to tears and punctures. Nitrile is three times more-puncture resistant than latex of the same thickness, making it one of the best solutions for long-wearing durability. Our Clean Hand® and Health Hand® nitrile gloves also offer superior chemical resistance for a wide range of chemicals. In addition to nitrile's excellent tensile strength and durability, the gloves conform well with excellent elasticity resulting in a latex-like fit and feel. Nitrile's barrier properties make it "the choice" for foodservice, janitorial, and sanitation safety. It is also popular with "first responders," including EMS, police, and others.

Polyethylene Disposables

Used primarily in foodservice, Clean Hand® polyethylene disposable gloves are very cost effective. Volk Protective Products offers the widest selection of bulk packaging to help make the value that much greater for you. Our polyethylene gloves are hot-seamed flat and are manufactured from materials to comply with FDA requirements for food contact. Recommended for short-term use, these ambidextrous barrier solutions can be dispensed economically throughout any facility. Volk Protective Products' poly line includes wrist length poly, elbow length poly, and poly sleeves.

Frequent skin contact with solvents can cause chronic cracking and reddening of the skin. Due to lowered resistance, skin may be more susceptible to irritants for a long time after physical symptoms have healed. Continued exposure to solvents could result in permanent skin damage.

Work Safe® Liquid and Chemical Resistant Gloves

Volk Protective Products offers hand protection products for heavy duty applications including use of chemicals or harsh detergents and performing janitorial tasks and maintenance.

Work Safe® supported and unsupported nitrile, latex, and neoprene gloves are liquid- and chemical-resistant to protect workers from dermatitis caused by liquid, oil, and chemical exposure as well as many abrasion hazards commonly encountered in foodservice facilities. As part of your accident prevention program, Volk can provide you with training support to teach workers proper use and care of their protective wear.

Work Safe® Cut Resistant Gloves

Cut & Safe® composite-fiber gloves are lightweight, machine-knit, and cut resistant. They are manufactured with a combination of Spectra fiber and steel, two of the highest-performing materials on the market. An extremely durable polyethylene fiber, Spectra Cut Level 4 Gloves are the cutting edge in cut-resistance, and provide up to 40% greater cut protection, pound-for-pound, than aramid fibers.

ClawCover® gives you a color-coding option to help reduce the risk of cross contamination. Heavy-duty ANSI A6 cut resistance provides outstanding protection against cuts, slashes, and abrasions caused by a knife, mandoline, or other sharp blade. Lycra is added to help achieve form-fitting and long-wearing comfort, giving busy cooks the dexterity to keep pace during peak kitchen hours.

No.	Description	Size	Case pack
ClawCover Glove			
52000	Heavyweight (10 Guage), ANSI Level 5	S, M, L	Sold by each

Volk Cut & Safe Glove
Value priced Spectra® knit. Launderable and bleachable, ANSI level 4

ClawCover Glove
High-performance synthetic fiber and steel, ANSI level 6

**Dotted Cotton Gloves**

8 oz. cotton w/ PVC dots on palm, thumb, and forefinger. Dotted on one side. Provides excellent grip and abrasion resistance. Dots increase glove wear life.

Poly/Cotton Blend Gloves

Easily washable and resistant to shrinkage, offering longer wear life than cotton alone. Great elasticity; glove stretches to fit and returns to form.

**Leather Driver Gloves**

Long wear and maximum dexterity for a variety of tasks. Grain leather is naturally comfortable, with less "breaking-in" time. Top grain cowhide w/straight thumb.

Leather Palm Gloves

Ideal for a variety of applications, leather palm gloves offer comfort, protection, and abrasion resistance. Economical solution. Wing thumb, with safety cuff. Knuckle strap provides additional abrasion resistance in critical wear area.

Work Safe® General Purpose Gloves

For all-around personal protection in the foodservice, food processing, industrial, grocery, janitorial, and sanitation environments, count on Volk for protective gloves in canvas, leather, and string knits.

No.	Description	Size	Case pack
Dotted Cotton Glove			
00102-MPD	8 oz. cotton w/ PVC dots on palm, thumb and forefinger	Medium	25 doz
00102-LPD	8 oz. cotton w/ PVC dots on palm, thumb and forefinger	Large	25 doz
00102-MPD-2	8 oz. cotton. Double-sided, PVC dots (ambidextrous)	Medium	25 doz
00102-LPD-2	8 oz. cotton. Double-sided, PVC dots (ambidextrous)	Large	25 doz
Poly/Cotton Blend Glove			
00102	Washable, resists shrinkage, longer wear life than cotton	M, L	25 doz.
Leather Driver Glove			
003200	Top grain cowhide w/straight thumb	S, M, L, XL	10 doz.
Leather Palm Glove			
00110	Leather palm for protection and abrasion resistance	L	10 doz.

Cotton, canvas, and jersey chore gloves protect workers from abrasions and blisters while performing maintenance, shipping and receiving, and stock-handling tasks.

**Rubber Coated Knit Gloves,**

PF300 Natural rubber coating provides outstanding abrasion resistance while cotton-polyester shell provides excellent comfort and fit. Textured, natural rubber palm for safe, sure grip. Gray fabric does not show dirt or grime.

Brown 8 oz. Jersey Gloves

100% cotton jersey knit. Clute cut. Form-fitting. Excellent elasticity. Conforms to hand, allowing for better tactile sensitivity. Close fit improves glove's insulating performance.

**Cotton/Canvas Gloves**

Clute cut, straight thumb, knit wrist. Breathable fabric for all day comfort. Excellent seam strength.

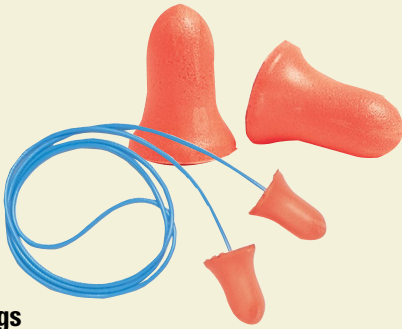

Orange Gripper Gloves

Orange string knit with two-sided PVC criss-cross pattern for superior grip and wear resistance. Pattern on both sides, gloves are ambidextrous increasing wear life.

No.	Description	Size	Case pack
Rubber Coated Knit Glove			
PF300	Abrasion resistance rubber coating, cotton-polyester shell, textured, sure-grip rubber palm.	XS, S, M, L, XL	12 doz.
Brown 8 oz. Jersey Glove			
009-JI	100% cotton jersey knit. Clute cut. Form-fitting.	Men's	25 doz.
009-JCI	100% cotton jersey knit. Clute cut. Form-fitting.	Women's	25 doz.
Cotton/Canvas Glove			
008-KI	8 oz. cotton canvas, Clute cut, straight thumb, knit wrist.	Men's, Women's	25 doz.
Orange Gripper Glove			
OOWEBORANGE	Orange string knit with two-sided PVC criss-cross pattern on both sides (ambidextrous).	S, M, L	12 doz.

Work Safe® General Safety

In addition to gloves, we offer a variety of need-specific products to provide all degrees of protection that workers require. Volk offers the products you need, creating a true one-source resource. Put our experience to work — ask for a facility audit!

Ear Plugs

The highest protection rating available. Remarkably soft, expandable foam ear plugs reduce pressure on the ear canal. Self-adjusting foam creates a custom fit. Smooth, soil resistant skin coating enhances hygiene and comfort. Flared end promotes optimum insertion depth and easy removal. Each pair individually packaged. NRR 33dB. Compliance: ANSI S3.19-1974.

No.	Description	Case pack
LHMAX-1	Uncorded	200 Pr/Bx, 10 bxs/case
LHMAX-30	Corded	100/Box, 10 bxs/case

Eyewash Wall Station

Durable Wall Stations provide close-to-the-work convenience and immediate accessibility. Directions for use are permanently printed on each wall station.

- Easy mounting with peel off self-adhesive or screws
- Wall station overhang protects bottles from dust
- Twist off top is easily removed in an emergency

No.	Description
460	16 oz. single bottle station
461	32 oz. single bottle station
461	32 oz. single bottle station
455	32 oz. refill bottles

N95 Particulate Respirators

Protective respirators designed with your comfort and protection in mind. Our nuisance masks are ideal for light filtering applications. Features latex-free double head strap, adjustable aluminum nosepiece, and comfortable nose foam.

- Compliant with 42CFR Part 84
- NIOSH N95 approved
- Meets CDC guidelines for TB exposure control

No.	Description	Case pack
1895N	No valve	20 per box, 12 bxs/case
1895NV	Exhalation valve	20 per box, 12 bxs/case

First Aid Kit, FA9301-25P

Plastic case with gasket, 9-1/6" x 6-5/16" x 2-3/8". Kits have bilingual (English/Spanish) labels.

Kit Contains:	
100	1" x 3" adhesive plastic bandages
3	knuckle fabric bandages
3	large fabric fingertip bandages
1	3" conforming gauze roll bandage
1	40" triangular sling/bandages with two safety pins
6	3" x 3" gauze dressing pads
1	5" x 9" trauma pad
42	antiseptic cleansing wipes
1 bx	First aid/burn cream packs (0.9g each, 10/bx)
1	4" x 5" instant cold compress
1	1/2" x 10 yd. tape roll
1	pair nickel plated scissors (4-1/2")
1	4" plastic tweezers (one time use)
2	pair exam quality gloves and 1 first aid guide

Direct Ventilation Goggles

- Economical protection against flying objects, dust, and debris
- Meets or exceeds ANSI Z87.1-1999 standards

No.	Case pack
1780	144 pieces per case, 12 boxes of 12 goggles ea.

Luna Spectacles

Classic, ANSI-rated protective eyewear design. Weighs less than 0.8 ounce. Low-cost protective eyewear designed to be sleek and compact. Standard anti-fog protection plus abrasion, chemical, and UV resistance. Meets demanding industry test requirements (ANSI Z87.1+, EN166UV, CSA Z94.3, and CE EN 166).

No.	Description	Case pack

Polycarbonate Visitor Spectacles

Ideal protection for short term use. Meets or exceeds ANSI Z87.1-1999 standards. Clear lens.

No.	Case pack
BKOTG-9001A	1 doz. pair/case

Work Clean® Work Apparel

Volk Protective Products' essential Work Clean® products protect both the work environment and the worker. The complete line includes disposable aprons, shoe covers, bouffants, hairnets, and beard covers. Work Clean products help workers comply with state and local laws that require food prep workers to keep their hair from coming in contact with food, clean equipment, utensils, and linens. In addition to preventing hair from falling into foods, hair protectors such as bouffants and beard covers discourage employees from running their hands through their hair or beard. Aprons protect clothing from stains, prolonging its wear life. Clean clothing naturally presents a more appealing appearance to guests.
