

Profile

Servolift Platform / Material lifters for any clean processing environment where lifting carry-away / roll-away / palletized items are required.

Our Platform Lifts are also very popular as elevators in vertical processing trains where going to a dirty freight elevator is not an option. Bio-Pharmaceutical Manufacturers' also use these to lift smaller items to platforms around media and buffer prep tanks.

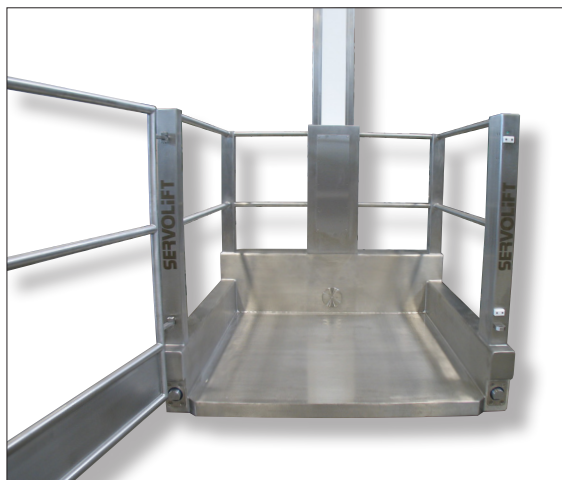

There are Over 420 Servolift platform lifters in operation currently - one cannot purchase a more proven or safe system!

Typical Applications:

- Bio-Pharma Buffer/Media Prep areas
- In-process vertical moving of heavy items

Specifications:

- Lifting Capacity to 15,000 lbs
- Lifting Heights to 60'
- Push-to-Call operation up to 6 levels
- Platform Size up to 12' x 12' Can be free standing, or also attached to the ceiling
- Explosion proof for all classes and divisions
- Cleanroom ready to Class 100
- Full Washdown
- Stainless Steel 304 or 316L
- Any level of finish (RA 35 μ -inch is standard)
- Controls offered from simple relay logic to fully automated PLC/HMI operation
- 100% customizable for any possible application!

Not all platform lifts are the same! Before you purchase a lower quality machine from another vendor ask to see in installation of ours - the difference is HUGE!

Pit-less design option: with our arm-over system you can avoid a pit while having the platform at zero-height (for rolling items onto it without lifting)
