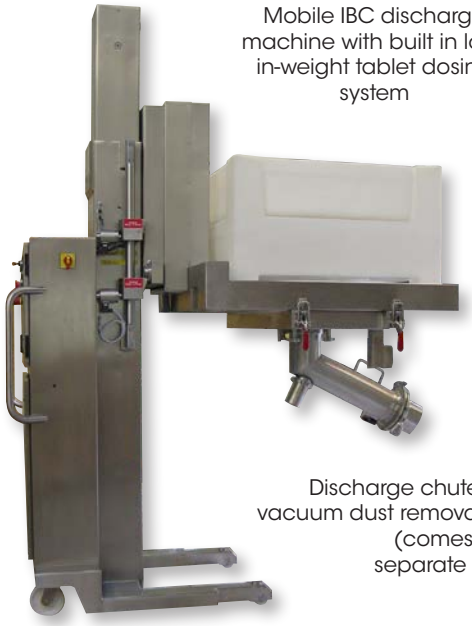
The Advantage: Proven Designs - Fully Customized - Unmatched Experience

Profile

Every solid dosage manufacturing plant requires safe handling of both uncoated and coated tablets without breakage. Servolift has produced hundreds of customized systems to solve these applications.

We offer our client's total security in knowing that we have the experience to deliver a properly working and cGMP system, as we have produced thoudands of successful installations since 1976.

We can handle any IBC/BIN, Drum or FIBC and have virtually no limitations in what we can do.



Mobile IBC discharge machine with built in loss-in-weight tablet dosing system

Discharge chute with vacuum dust removal unit (comes on a separate cart).
