

TPS Easifold® 1210

The 264 gallon Easifold® 1210 is easy to assemble and fold, has reinforced, smooth hygienic side panels, and a press down lid with locks that engage automatically.

The Drop door makes liners easy to install. The long side panels have an anti-collapsing device that holds the wall securely in place.

The TPS Easifold® 1210 has a large sump space for easy valve handle application. The sump cover will attach, through a magnetic device, to the wall panel when open and will return to its original closed position automatically when the panels are folded. A TE clip with security number can be attached when the sump is locked for the tamper evidence (TE) function.

For specifications see overleaf.

TPS Easifold® 1210

Specifications

Pallet sides and lid: Polypropylene
Fully recyclable. Food contact approved

Technical Specification

Volume capacity: 264 Gallons
External dimensions, Inc. lid: 47.2" (L)x39.4"(W)x46.4" (H)
Internal dimensions: 44.5" (L)x33.6"(W)x38.8"(H)
Folded height: 14.7"
Drop door: 22" x 16"
Internal volume: 264 Gallons
Container capacity: 264 Gallons
Tare weight: 198 lbs
Maximum dynamic load: 6600 lbs (2 high)
Maximum static load: 16500 lbs (5 high)

Operating Capabilities

Stacking height - erected:
2 high – 92" 3 high – 138"
4 high – 184" 5 high – 230"
Stacking height - folded:
2 high – 29" 3 high – 43.5"
4 high – 58" 5 high – 72.5"
6 high – 87" 7 high – 102"
Return ratio (approx): 6:1 (87") and 7:1 (102")
Functional temperature range: -4° to +120° F
