What happens at your Child and Family Team meetings?

You will select the members of your Child and Family Team. Your Bergen's Promise Care Manager will help coordinate and provide structure for the initial team meetings.

Child and Family Team meetings are an important part of the process where your voice will be heard in order to develop a plan focused on accomplishing your desired goals.

What is the vision of what you would like to see happen now or in the future for your family?

The answer to this question helps form a plan based on your interests, strengths and needs. It's called the Individual Service Plan.

This plan is discussed with, agreed to and signed by your Child and Family Team.
