

**BRASS
KNUCKLE®**

CONSTRUCTION INDUSTRY SAFETY

THE PERFECT **GLOVES, EYE PROTECTION** AND **ERGO-WEAR** FOR **CONSTRUCTION SAFETY**

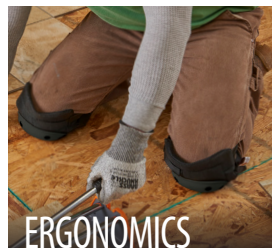

Brass Knuckle is all about protection, fit, value, and comfort to maximize compliance and safety. We know construction hazards and design superior, application-based features for the quality, selection, and protection that best meet the needs of you and your workers. We bring no new product to market unless it improves safety and helps increase worker compliance.

HAND PROTECTION

EYE PROTECTION

ERGONOMICS

We offer a full range of safety products

If a protection product isn't comfortable or easy to work in, people won't wear it. Gloves and ergonomic products have to afford flexibility, eye protection, uncompromising fit, style, and long-wearing advantages, like anti-fog and anti-scratch protection. Every product meets our high standards of quality.

Protect your workers from the hazards of construction

Brass Knuckle checks all the boxes when it comes to certifications, standards, and compliance.

Come out of the fog.

Our anti-fog lens coating uses a groundbreaking technology that delivers better and longer-lasting fog-free protection than that of competitive anti-fog coated products. Our BK-Anti-FOG and BK-Anti-FOG+ coatings provide extreme anti-fog performance and improve both worker safety and productivity. The toughest anti-fog standard in the world is the EN 166/168 standard. We didn't set out to meet it, we crushed it.

ERGONOMIC PRODUCTS

Part Number	Characteristic
BKKN100	Ethylene-Vinyl Acetate Adjustable Knee Pad, Lightweight Cushioned Foam Knee Pad
BKKN200	Hard, Contoured Polyethylene Cap, Heavy-Duty Protection, Enhanced Patella Stability Reduces Risk of Injury

Take a Knee.

Stability. Protection. Flexibility.
