## Art Fundamentals Student Portfolios Spring 2018

Each Art Fundamentals student creates a portfolio of work created during the semester. Over time and after taking different art classes, students can collect quite a few portfolios of work, demonstrating their skills in art making, organization, thinking and writing about work, and growth over time. These are skills valued not only in the art world, but in virtually every job imaginable. As you look, please remember that until the semester is over, these are works in progress.

## Ella, Art Fundamentals, Spring 2018

### Initial Responses to Prompts:

I painted the mural for the class of 2020 that currently sits on the board next to the library. I had painted a mural for the semi formal dance (a big re-creation of Starry Night) but I hadn't painted much before that. I think that after seeing how well I did on it, I started to like painting more. This has only been recently but I've always loved drawing.)

### BELIEFS ABOUT LEARNING

At Yarmouth High School, we believe the best learning occurs...

- when **positive relationships** form the foundation for learning;
- when students engage in **high-level learning** and access **appropriate support**;
- when students have an **active role** in their learning and in the school community;
- in a culture of **collaboration**;
- when students and teachers **extend their learning** beyond the school;
