## *South & Pine*

MORRISTOWN, NJ

Utilizing a variety of different collections, South & Pine has created an upscale, farm to table experience for their customers.

"I am really enjoying the Dudson plateware that we have incorporated onto our tables this year. They have a wide range of styles, and the plates we chose are stunning. I love the subtle line work on the Evo, and the very organic coloration on the Finca. They add a lot of creativity to our dishes, without overpowering the food."

## *317 Main Street*

FARMINGDALE, NY

"I love the plateware and products from Arc Cardinal. The diversity, quality and variety is what we love at my restaurants 317 Main Street and Vico. Whether it's a simple plate with light texture and color to a plate that adds to our customers experience, we as a restaurant and I as a chef love using it all on a daily basis."

## *Luna's Mexican Kitchen*

CAMPBELL, CALIFORNIA

"Here at LUNA Mexican Kitchen, we love to surprise our guests with the smallest of details. Stemware is part of the guest experience; it's the unexpected things that make an experience stellar. Currently, we are serving Riff Pinot Grigio and Poseidon Pinot Noir, which both use sustainable and organic farming practices. We are excited to be bringing in an orange wine for spring. Also, Rosé is no longer just a seasonal wine, it is consumed year-round because it is fresh, usually low in alcohol, and pairs well with our Golden Beet Citrus Salad or Shrimp Ceviche."

The background of the image is a photograph of a desert landscape. In the foreground, there is a smooth, undulating sand dune that slopes upwards from the bottom left towards the right. The sand is a light, warm beige color. Above the dune, the sky is a clear, pale blue, occupying the upper two-thirds of the frame. The overall composition is simple and minimalist, with a focus on natural textures and colors.

Made In England – Using the Dudson Finest Vitrified ceramic body.

Individuality Through Print – Printing creates individuality within each piece, as the light and dark color tones vary. Reactive prints create an individual texture and colors.

Handcrafted Collection – Each piece is individually glazed by hand leaving an original 'maker's mark', on the reverse, highlighting the hand crafted nature.

Fully Glazed Foot – Pin firing. Fully glazed foot prevents scratching and cross contamination when product is stacked. All England made products come with a fully glazed foot.

## *Finca*

Finca is a multi-tonal print that mimics the worn textures of rustic interiors and architectural designs. Crafted and creative, Finca is finished in a semi-matte, hand dipped glaze, enhancing the character of the collection and leaving original 'makers marks' on the reverse of each piece.

Decorated in-glaze for industrial toughness, The Maker's Collection is designed for professional use.

Maria Portugal Terracota pieces are inspired by ancient processes and traditions from the history of ceramics and the visual richness found in Portugal, but also the adventure of new challenges and trends.

Production is industrial, focused on efficiency and environmental sustainability. The decoration is all handmade, which allows for a unique and distinctive handcrafted touch in all the pieces.

# *Flatware*

# Crafted Excellence

Crafted from the highest quality stainless steel which is an alloy of steel with chromium and/or added elements resistant to rust and corrosion.

## What is Stainless Steel?

Stainless steel is a durable and affordable metal that is used for a wide variety of purposes. It's strong, making it perfect for flatware and it's corrosion resistant, so it can last a long time without being replaced.

## Chromium

Chromium is an essential element used in stainless steel for its durability and rust/stain resistant properties.

## Nickel

Nickel is an element added to bring strength to the flatware as well as a soft luster similar to silver, producing a bright and polished look and also gives added resistance to corrosion.

### Chromium / Nickel

1st Number / 2nd Number

## 18/10 Stainless Steel *(304 Stainless)*

Contains 18% chromium and 10% nickel. 18/10 is the highest quality stainless steel. This stainless is non-magnetic therefore it will not work in flatware retrievers.

## 18/0 Stainless Steel *(420 Stainless)*

Contains 18% chromium and 0% nickel. 18/0 has an economic value which is usually seen at casual and high volume restaurants. This stainless steel is magnetic, therefore, it will work in flatware retrievers

## 13/0 Stainless Steel *(410 Stainless)*

Contains 13% chromium and 0% nickel. This steel is used to make knives due to the softer properties.

## Medium Weight

Medium weight flatware are patterns that are more economical and tend to be trendy and transitional. These patterns are ideal in casual, high-paced establishments as well as mid-level restaurants.

## Heavy Weight

Heavy weight flatware are upscale patterns that can be found in high-end restaurants, upscale casual and fine dining and in hotels. They tend to be more modern in design.

C&S  
Chef & Sommelier

# Glassware Care & Handling

Elegant dinnerware, shining cutlery, fresh linens and sparkling glassware make an impression on your customers that is almost as important as what is on your menu. As such, high-quality tableware is a big investment — protecting and maintaining this investment is essential to the success of your operation.

Thermal shock (sudden temperature change causing stress and often resulting in breakage) and mechanical shock (impact causing chipping, cracking, or breakage) are the primary factors affecting the life cycle of glassware.

Food service glassware absorbs thermal and mechanical shocks on a daily basis. Eventually, it will give in to the buildup of these shocks, and breakage will occur. If your glassware shows the wear and tear of rigorous use, it should be retired — before it can break in-service or otherwise affect your customers' opinion of your operation.

## GLASSWARE DO'S

**ALWAYS** separate glassware, dinnerware and flatware bus tubs.

**ALWAYS** use an ice scoop to fill glasses with ice

**ALWAYS** stack items specially marked as stackable

**ALWAYS** allow freshly washed glasses to return to room temperature before going back into service

**ALWAYS** preheat glasses used for warm drinks with warm water.

**ALWAYS** remove chipped or cracked glassware from service for safety reasons.

**ALWAYS** load glassware into a plastic storage rack.

**ALWAYS** use the proper racks for each glass.

**ALWAYS** remove ice and beverage before placing glass in bus tub to allow the glass to return to room temperature before dishwashing (to avoid thermal shock).

**ALWAYS** keep the proper amount of par levels for the operation.

## GLASSWARE DONT'S

**NEVER** mix glassware, dinnerware and flatware in the same bus tub.

**NEVER** scoop ice with glasses.

**NEVER** stack glasses that are not marked stackable.

**NEVER** use dishwasher warm glass for serving cold beverages

**NEVER** have glass to glass contact—avoid picking more than 1 glass up at once.

**NEVER** put flatware into glasses.

**NEVER** allow the glass to make contact with the beer tap.

**NEVER** allow glassware to remain soiled overnight or for long periods (max 2 hours).

# Dinnerware Care & Handling

Food service dinnerware handles a heavy workload — and while Arc Cardinal builds dinnerware for such usage, there are some simple steps that can be taken to significantly prolong the life and look of these products. The following guidelines cover various troubleshooting and maintenance ideas that are applicable to all types of dinnerware.

## DINNERWARE DO'S

**ALWAYS** use a plastic scraper, sink sprayer or gloved hand to remove stubborn food.

**ALWAYS** use proper dish racks for plates and hollowware items during dish washing.

**ALWAYS** separate dinnerware from glassware and flatware in bus buckets.

**ALWAYS** have your commercial dishwasher serviced regularly to ensure proper water balance and rinse aid.

**ALWAYS** allow dinnerware to cool after dishwashing to room temperature and thoroughly dry before storing or putting back in service.

## DINNERWARE DONT'S

**NEVER** use metal pads, steel wool or abrasive cleaners.

**NEVER** stack dishes more than 1 ft. high.

**NEVER** overload bus buckets.

**NEVER** bang dinnerware on waste can or warewashing table to avoid chipping and damage to dinnerware.

**NEVER** leave soiled dinnerware overnight to avoid staining of surfaces from certain beverages and sauces.

## ARC CARDINAL FIVE-YEAR EDGE CHIP WARRANTY

Select Chef & Sommelier and Arcoroc collections offer a five-year edge chip warranty as standard on ALL pieces within the collections – including the squares, rectangles and cups – yes, everything. (Conditions available upon request.)

# Flatware Care & Handling

Strict adherences to specifications and stringent quality controls at each stage of production make Chef & Sommelier, Sola and Arcoroc flatware resistant and reliable. We meticulously scrutinize our items to ensure they are of the correct gauge, an important guarantee of durability.

Arc Cardinal offers flatware made from 18/10 stainless steel and is designed to withstand intensive use and industrial dishwasher conditions. Whether classic or modern, you will find the Chef & Sommelier, Sola, or Arcoroc pattern that fits your needs in terms of aesthetics and user requirements. For your peace of mind, our 18/10 products come with a 10-year guarantee, applicable in case of any defect in the materials or production. This guarantee is only valid if all recommendations for use (listed below) are followed. Damage due to normal wear and tear, an accident, improper use, excessive use of detergents or use of non-compliant detergents is not covered by this guarantee. This does not cover discoloration, scratching or staining.

## DINNERWARE DO'S

**ALWAYS** separate flatware from other items in the bus tray.

**ALWAYS** rinse flatware after use before loading in the dishwasher.

**ALWAYS** empty dishwasher immediately after completion of cycle and dry flatware with a soft cloth.

**ALWAYS** store flatware in a dry place.

**ALWAYS** use the proper flatware racks for ware-washing to encourage water to dry/drain quickly and minimize scratching.

## DINNERWARE DONT'S

**NEVER** use detergent with lemon or other citrus added.

**NEVER** wash silver and stainless together to avoid discoloration.

**NEVER** use silver cleaner to wash stainless.

**NEVER** use flatware for cooking as intense heat could damage the flatware.

# Glassware Par Levels

To calculate standard usage quantities for your establishment, select the appropriate type of operation, and then simply multiply the number of seats by the number listed below.

Example:
