creator of experiences.

CREATE. CURATE. CELEBRATE.

Elevating your guest's experience is your priority. Bringing your vision to life is ours. No matter the experience, we are here to help you create a remarkable one. Our expertly crafted collections of tableware, buffetware, and accessories supports the needs of today's chefs, mixologists and sommeliers.

This visionary approach to tableware is the founding principle of our culture and brands.

Flatware.

The overlooked gem on the table.

IS PICKING THE RIGHT FLATWARE IMPORTANT?

YES, it is! It might seem insignificant for the success of a restaurant but its purpose is so much more.

Flatware has been referred to as the jewelry of the table but it is so much more than just appearance. Flatware has enormous power and can either complement your restaurant's decor or distract from it.

ENHANCES FLAVOR

Research suggests the size, weight, balance and style of flatware can not only enhance the flavor of the cuisine but diners are willing to pay more for the overall experience.

FUNCTIONAL

The functionality must take precedence over design. The most expensive designed flatware will not impress the customer if it is too heavy or uncomfortable to use.

FIRST IMPRESSION

The brain makes judgments on food even before it is eaten, all of which can be altered by the style of cutlery. Combining functionality and style in the flatware will make a great first impression and lay the foundations of the overall dining experience.

WHAT IS STAINLESS STEEL?

CHROMIUM

NICKEL

STAINLESS STEEL

USED FOR:

- Durability
- Rust & stain resistant

USED FOR:

- Strength
- Soft luster akin to silver
- Bright polished look
- Added resistance to corrosion

Stainless steel is a durable, affordable metal, ideal for various uses. Its strength makes it perfect for flatware, while its corrosion resistance ensures long-lasting durability.

First #(Chromium)/Second #(Nickel)

TYPES OF FLATWARE:

(304 Stainless)

18% CHROMIUM | 10% NICKEL

- Highest quality stainless steel
- NOT magnetic, will not work in flatware retrievers

GREAT FOR:

High-end/luxury properties

(420 Stainless)

18% CHROMIUM | 0% NICKEL

- Economic value
- Magnetic, compatible with flatware retrievers

GREAT FOR:

Casual & high volume restaurants

(410 Stainless)

13% CHROMIUM | 0% NICKEL

- Used exclusively on knives in our portfolio

MEDIUM WEIGHT

Patterns that are more economical and tend to be trendy and transitional. These patterns are ideal in casual, high-paced establishments as well as mid-level restaurants.

HEAVY WEIGHT

Upscale patterns that can be found in high-end restaurants, upscale casual and fine dining and in hotels. They tend to be more modern in design.

Finishes

Throughout our many different flatware collections we have a variety of finishes available. Sourcing options available for silver finish upon request.

MIRROR POLISH

Flatware is polished/buffed to a bright, clear, glossy finish.

Alessandria, Burlington, Capitale, Diaz, Ezzo, Elegant, Enrico VIII, Fluted, Harrison, Harper, Knox, Kya, Lazzo, Latham, Liv, Liv II, Living, Matiz, Mikayla, Matisse, Milord, Miracle, Neo, Orzon, Renzo, Vesca, Rada, Splendido, Stone, Stilo, Victory

SATIN POLISH

Flatware is polished/buffed to a soft, brush/matte-like finish.

Black Oak Satin, Harper Satin, Living Satin, Monaco Satin, Satineo, Stone Satin

PATINA

Flatware is tumbled with stones to create a distressed finished look.

Baguette, Matisse, Matisse Gold, Orzon, Renzo

SAND BLAST

A two-tone finish that requires an extra process of sand blasting which allows for outlined design areas on a mirror finish.

Amber, Kya Sand, Latham Sand

OXIDIZED

Flatware is submerged into a solution for a short period of time then taken out to polish creating a black finish.

Black Oak

PVD (PHYSICAL VAPOR DESPOSITION)

Flatware is hung by small hooks in a chamber and vapor is sprayed into the chamber. Titanium is used and can be done in a black, gold, copper and rose gold finish.

Baguette, Blake

HAMMERED

A "hammered" look is achieved by adding the dimples in the mold.

Miracle, Rinascimento, Stone, Stone Satin, Waterfall

Setting the Table by Style

The style of flatware plays a crucial role in shaping a restaurant's ambiance and enhancing the dining experience. From sleek, modern designs to updated traditional styles, classic elegance, and transitional patterns, the right flatware complements the overall aesthetic of the establishment.

STEAK KNIVES

PAKKAWOOD

An engineered wood/plastic composite material. It creates a genuine wood grain look with better durability and no warping or splitting which is common in real wood.

ACRYLIC

A transparent thermoplastic homopolymer that is dishwasher safe and great for high abrasion resistance.

POM

An engineered thermoplastic material for steak knife handles. A typical application for injection-molded designs.

ABS

Acrylonitrile butadiene styrene (ABS) is a strong, durable, and versatile plastic.

Care & Handling

Strict adherences to specifications and stringent quality controls at each stage of production make Chef & Sommelier, Sola and Arcoroc flatware resistant and reliable. We meticulously scrutinize our items to ensure they are of the correct gauge, an important guarantee of durability.

Arc Cardinal offers flatware made from 18/10 stainless steel and is designed to withstand intensive use and industrial dishwasher conditions. Whether classic or modern, you will find the Chef & Sommelier, Sola, or Arcoroc pattern that fits your needs in terms of aesthetics and user requirements. For your peace of mind, our 18/10 products come with a 10-year guarantee, applicable in case of any defect in the materials or production. This guarantee is only valid if all recommendations for use (listed below) are followed. Damage due to normal wear and tear, an accident, improper use, excessive use of detergents or use of non-compliant detergents is not covered by this guarantee. This does not cover discoloration, scratching or staining.

FLATWARE DO'S

ALWAYS separate flatware from other items in the bus tray.

ALWAYS rinse flatware after use before loading in the dishwasher.

ALWAYS empty dishwasher immediately after completion of cycle and dry flatware with a soft cloth.

ALWAYS store flatware in a dry place.

ALWAYS use the proper flatware racks for ware-washing to encourage water to dry/drain quickly and minimize scratching.

FLATWARE DONT'S

NEVER use detergent with lemon or other citrus added.

NEVER wash silver and stainless together to avoid discoloration.

NEVER use silver cleaner to wash stainless.

NEVER use flatware for cooking as intense heat could damage the flatware.

Par Levels

To calculate standard usage quantities for your establishment, select the appropriate type of operation, and then simply multiply the number of seats by the number listed below.

Example:

125 Seat Fine Dining Restaurant x Teaspoon (5) = 625 Teaspoon recommended order quantity.

100 Seat Fine Dining Restaurant x Iced Tea Spoon (1 ½) = 150 Iced Tea Spoon recommended order quantity.

200 Seat Upscale Casual Restaurant x Dinner Knife (2) = 400 Dinner Knife recommended order quantity.

Item	Segment		
	Fine Dining	Upscale Casual	Catering
Teaspoon	4	3	3
Dessert or Soup Spoon	2	2	3
Tablespoon	¼	¼	-
Iced Teaspoon	1 ½	1	-
Demitasse Spoon	2	1	2
