Refrigerated - Pastry & Bakery

MINIMAL Refrigerated /Pastry & Bakery/ Sandwich/ Prepared Foods

With a modern and minimalist design, the new line of Minimal display cabinets were developed to meet the requirements of the new exposition concepts for pastry and bakery products. The elevated exhibition plan, the set of low glasses and the absence of technical elements give it an extraordinary visibility which enhances the quality of products on display.

The Minimal Series Display Case combines both modern and simple minimalist design. Developed to offer solutions for Pastry, Chocolate, Macaron, Bread, Salad, Sandwich and Prepared Food Display - the elegant design allows the customer to easily connect with the displayed products - clean lines, easy visibility - and some unique solutions make this a simple option that lets the product display do the talking.

Features:

- Available for Pastry, Chocolate, Macaron, Bread, Salad, Sandwich and Prepared Food
- DUPLA Technology version (pastry/ chocolates) with a simple button easily adjust the temperature of the display case according to the exposition needs. available allowing case to offer both refrigerated and chocolate with humidity control to be offered in the same case.

Pastry & Bakery

Retro Back Bar Displays

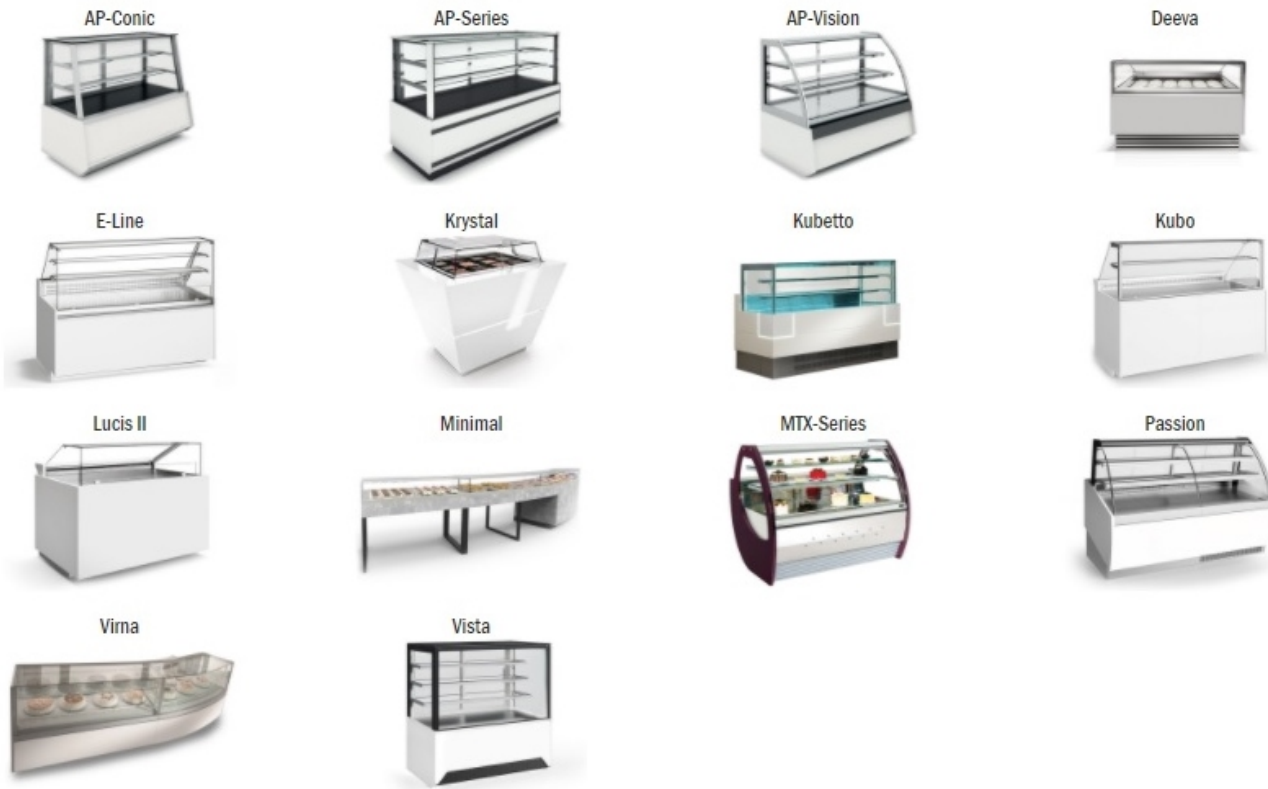

Simple back wall displays for bread / donuts/ storage and display.

Individual pieces with choice of widths - choice of frames in black or white.

Interior shelving in metal “wood look”

Led Lighting to enhance product display

Chocolate

GTI Line of cases can offer a multitude of solutions. All of the cases shown have a chocolate case option

This means the case is specifically designed for the display of chocolate - which requires a warmer temperature control than standard refrigerated cases and most importantly the cases come with humidity control which is the essential feature in displaying chocolate.

Humidity causes the chocolate to “bloom” which you see as the whitening of the chocolate if this is not controlled.
