Care & Use Instructions
To keep wood from drying out and decrease the water absorption , board should be seasoned with a food-safe mineral oil before first use and periodically afterwards. Hand-wash with hot, soapy water. Dry thoroughly.
Do not soak or submerge board in water. To sanitize, wash the board with a solution of one part vinegar to five parts water. Occasionally rub with a food-safe mineral oil to keep wood from drying out. Store in a dry area away from extreme temperatures.

Custom Wood

Personalizing your wood boards is a great way to set your establishment apart from the mainstream. Visual memory is long term and will keep your guests remembering your venue.

Your Logo / insignia can be applied to any selection of our wood boards

You can also design your own wood board that fits your specific serving needs.
