

MityBilt is proudly Canadian owned and operated and is based in Stonewall Manitoba. With the wealth and quality of resources available in Canada, it has enabled us to manufacture products that are made up entirely of Canadian raw materials.

As a responsible manufacturer, we take great care in designing and developing products that will work well for you and not only look great, but work and function with you in mind. Our extensive in-house capability allows us to quickly adapt to the ever changing demands of the market, while reducing your lead times and maintaining full quality control.

Why buy Canadian?

Economy

When we buy Canadian, we immediately impact our economy in many positive ways. Every dollar spent has a ripple affect far further than the business we purchased from. You are securing jobs, helping create new ones and allowing businesses to support local charities.

Health & Safety

When we buy Canadian, we know that the products have met this country's health and safety standards. Manufacturing in Canada is highly regulated. Those safety measures sometimes mean an increase in the retail prices but it's a small price for peace of mind!

Environment

When we buy Canadian, we reduce our carbon footprint as these products are made closer to home and require much less transportation. Check out our on-line calculation to discover how much you reduce your carbon foot print when buying Canadian made furniture! www.mitybilt.com/environment

Labor Standards

When we buy Canadian, we can rest assured that the people who make the products are treated fairly, working in safe and sanitary conditions.

Community

When we buy Canadian, we are contributing to the enrichment of our communities. It systematically makes us a part of something greater than ourselves and our immediate needs.

Patriotism

The love of our country shouldn't stop at flying our flag or wearing red and white! We have every reason to be proud of Canada, including the vast range of products made here. We see 'Made in Canada' as a badge of honor; one we're proud of contributing to.

Culture

The corporate culture at MityBilt can be described as transparent, innovative and caring. Transparency is highly important for the co-founders, not only towards our customers but for our team members as well. MityBilt has always fostered an open door atmosphere for managers to be accessible to all team members and to help create an open flow of communication. MityBilt strives to hire team members who not only align with our values and goals, but add value and diversity to our organization.

Visit **www.mitybilt.com/team** to connect with some of the members you are likely to hear from.

MityBilt manufactures based on lean principles and uses only the most advanced automated technology to design and produce each collection of products.

This benchmark results in consistent high quality products, allowing for years of dependable use in some of the most demanding environments.

Eco-Care Outlook

Using material from Eco-sustainable sources, including a guaranteed recycled content, green guard laminates, low formaldehyde emission core materials, water based adhesives and paint finishes containing no Volatile Organic Compounds (VOCs), all reduce the Carbon Footprint of our products. Unavoidable manufacturing waste is recycled wherever possible.

Effective care for the environment involves working with others; it needs everyone to aim for the same goal. We want to work with you and your clients to provide responsible solutions for their furniture needs, and to minimize the impact on the environment.

At MityBilt we think twice about what we do and how we do it. While our aim is to become your preferred table provider, we don't want to sacrifice the environment to achieve this. We take the responsible view that it's on all of us to play our part in conserving the Earth's resources and to prevent damage to the environment around us.

The MityBilt environmental policy proves itself in three key areas:

- Sourcing environmental preferable materials
- Eco-friendly manufacturing practices
- Recycling of waste material

Using material from Eco-sustainable sources, including a guaranteed recycled content, green-guard laminates, low formaldehyde emission core materials, water based adhesives and paint finishes containing no Volatile Organic Compounds (VOCs), all reduce the Carbon Footprint of our products. Unavoidable manufacturing waste is recycled wherever possible.

All MityBilt tables and desks conform with the most stringent indoor air quality standards by exceeding the obligations of Green Guard Gold Environmental Requirements.

Visit www.mitybilt.com/environment

MityBilt Standards

Superior Table Edge Treatment

MityBilt includes a premium 3mm vinyl bonded edge-band on all tables and desks. This edge is bonded under high pressure, heat and glue and is a superior seal against the table core minimizing germs and increasing longevity. The 3mm vinyl bonded edge-band adds significant strength to the top and far exceeds the common T-mold edge that is easily removed by zealous students! The 3mm vinyl bonded edge also has a greater radius than T-mold edging making it more comfortable to work at and safer in high traffic areas.

3mm vinyl bonded edge-band is specified in healthcare environments for its security and cleanliness. Typically this edge type is an upgrade; however, at MityBilt we've made it our standard.

- Secure
- Hygienic
- Applied under high pressure and hot glue
- Sealed edge conforming to Green Guard Gold
- Comfortable 3mm radius conforming to CGSB standards

Metal-To-Metal Fixtures

Located in a drilled hole, the external threaded protrusions of the D-nut lock into the wood, preventing it from either turning or pulling out. The threaded metal insert adds great strength and security and is a permanent fixture in the table top. It allows the table leg to be attached with machine screws which can be inserted and removed multiple times without losing the integrity of the fixing or weakening the wooden table top. This table leg fixing method allows for quicker table assembly.

Clear Protective Overlay Decorative Laminate Phenolic Paper Layer Hot melt glue 1" High density particle board Chewing gum resistant taminate backing. Wax finish for superior easy cleaning.

Chewing Gum Resistant Backing

After consulting with educators and maintenance staff, we kept hearing the same complaints about furniture. The number 1 complaint was the awful chore of attempting to remove chewing gum from underneath tables and desks. MityBilt listened and responded by introducing a Chewing Gum Resistant backer.

As of 2017, a chewing gum resistant material was added to the underside of all tables and desks. This specially formulated backer doesn't allow the gum to adhere to the surface making cleaning tables a breeze and increasing school hygiene!

Limited Lifetime Warranty

MityBilt is known throughout North America for best in class educational furniture and has built a reputation of engineered products exceeding consumer expectations for quality and durability.

For additional peace of mind, MityBilt offers a Limited Lifetime Warranty which spans all tables, desks, study carrels, benches, stools and storage units for the lifetime of the product. In the unlikely case your furniture malfunctions from defects in workmanship or materials, we will repair or replace it free of charge.

Please visit www.mitybilt.com/warranty for detailed information.

Product Testing

MityBilt has confidence that every product it manufactures will perform beyond the demands of real world situations. An in-house test facility subjects our tables, chairs and components to extreme forces for hours on end to make certain our products will exceed your expectations. Many tests are carried out on our products during both development and production. Any proposed changes to the product or to the production method is reviewed by MityBilt to decide whether additional risk assessment testing is required.

MityBilt uses a third-party accredited test laboratory to perform certain complex testing and to keep up to date with current test requirements and legislation. MityBilt structural table testing exceeds the demands of ANSI-BIFMA and CGSB.

Get Set Up

- Visit mitybilt.com/my-account to access your personal online account.
- Once you're logged in, browse to your favorite item.
- Using the Furniture Builder, begin selecting the available options.
- An image of your item will appear on the website in real time, just how you built it!
- You can now request pricing and complete you order. So simple!

mitybilt.com platform

Built from the ground up, around our valued dealers.

The mitybilt.com platform allows you to build your furniture just the way you want it. We know there are a lot of colour options to choose from and a lot of decisions to make, so we've made it as easy as possible for you. MityBilt is known for its range of available colours, finishes and sizes so here's how we can help you start planning your next furniture upgrade!

Contact your local dealer today to be set up with an online account.

An online account gives you access to:

- Furniture Builder
- Up to date literature
- Request product and freight prices
- New product releases and updates

Using the online MityBilt Furniture Builder is a great way to visualize how your tables, desks and chairs will appear prior to ordering and delivery!

How InSTOK works

InSTOK is designed to fulfil your most urgent furniture requirements with simplicity. All products in the InSTOK program ship within 5 business days. To ship within 5 business days, all products on the order must consist exclusively of the InSTOK products otherwise the lead time will be extended. All products in the InSTOK program have a unique product # which must be reflected on the PO at the time of ordering.

Can I still purchase made-to-order products?

Yes, MityBilt offers a large range of additional products and colours which are made-to-order. If orders contain a mixture of InSTOK and made to order products, the order will ship in full once the item with the longest lead time is ready. Please contact your local dealer for current lead times on made to order products.

InST(

A selection of MityBilt favourites in popular sizes and finishes.

SHIPS WITHIN 5 BUSINESS DAYS!

For more information on InSTOK products, visit: www.mitybilt.com/instok

Watch out for the InSTOK logo through the brochure to identify which of these products qualify for the InSTOK programme.

REQUEST FOR YOUR INSTOK BROCHURE TODAY!

FREE SHIPPING OVER \$5,000!*

- Select cities in Saskatchewan, Manitoba and Ontario: Orders over \$5,000 qualify for free shipping
- Select cities in British Columbia, Alberta and Quebec: Orders over \$5,000 qualify for 3% shipping charge
- Orders less than \$5,000 require a shipping quote. Please contact your local dealer for this information
- If delivery direct to the school is required, please contact your local dealer for a direct delivery shipping quote.

MITYBILT PRODUCTS &

FIRST NATION SCHOOLS

MityBilt Products designed a range of educational furniture that incorporated benefits that has made it the choice of First Nation schools across Canada. Our First Nation customer values are still embodied in the contemporary and durable furniture for today's 21st Century Classroom furniture.

For more information on First Nation inspired products, visit: http://www.mitybilt.com/first-nations

Request for your First Nations brochure today!

THE MEDICINE WHEEL

MityBilt Products included both colour and shape into their furniture knowing the importance these features to our First Nation customers. MityBilt provides a wide choice of colours and shapes for both soft and hard furnishings.

The Medicine Wheel has been used by generations of various Native American tribes for health and healing. It embodies the Four Directions, as well as Father Sky, Mother Earth, and Spirit Tree, all of which symbolize dimensions of health and the cycles of life.

Different tribes interpret the Medicine Wheel differently. Each of the 4 Directions (Noth, East, South & West) is typically represented by a distinctive color, such as white, red, yellow, and black, which for some stands for the human races.

THE MEDICINE WHEEL TABLE

This Medicine wheel is inspired by many from the past and represents the circle of life. Each section represents a direction, a medicine, a teaching, an animal, a season, a part of the day, a stage of life, our place on Earth, an earth element and a Grandfather (rock).

HUSH SACRED SEVEN

48" Diameter - Wall Mounted Acoustic Panel

BUFFALO - Respect

BEAR - Bravery

EAGLE - Love

BEAVER - Wisdom

TURTLE - Truth

WOLF - Humility

RAVEN - Honesty

The 'Hush Sacred Seven' adds an exciting new dimension to the 21st Century Learning Space. Hush is manufactured from a safe, sound absorbing material enhancing acoustical properties to classrooms, libraries and common areas. Many Aboriginal organizations and communities have adopted the 7 guiding principles, in one form or another, as a moral stepping stone and cultural foundation. Each community has adapted the teachings to suit their community values. Despite where the teachings may have originated, they share the same concepts of abiding by a moral respect for all living things.

Aktivity

Making the Difference. Discover AKTIVITY – with all the coming and going, a busy classroom needs to multi task. The right layout can manage the activity. Size, shape, height and, of course, color is important. Only Aktivity will plan your classroom with the children in mind.

TEAM **PLAYER**

Conekt

The concept of collaborative learning, the grouping and pairing of students for the purpose of achieving an academic goal, has been widely researched and advocated. The term "collaborative learning" refers to an instruction method in which students at various performance levels work together in small groups toward a common goal. The students are responsible for one another's learning as well as their own. Thus, the success of one student helps other students to be successful. The active exchange of ideas within small groups not only increases interest among the participants but also promotes critical thinking.

Markerboard

Available in any shape with any colour legs and edge. The Markerboard Idea Table is great for sharing your ideas and thoughts on. Effectively promote creativity and mental engagement. Awesome for a quick game of X's and O's!

Guided Reading

Guided reading is a strategy that helps students become better readers. Although guided reading has been traditionally associated with primary grades it can be modified and used successfully in all grade levels. When the proper books are selected, students are able to read with approximately 90% accuracy. This enables the students to enjoy the story to its fullest capacity learning how to make meaning from print.

Did you know? In the late 90's the MityBilt "Guided Reading Table" was a best seller as MityBilt was the first North American manufacturer to introduce it in a range of different sizes and exciting colors. These tables are now know as the C-Shape, Kidney and Horseshoe shape. Then in the early 2000's MityBilt introduced a range of collaborative shape tables known as the "Conekt Linx" range. These 5 distinct shapes can be configured with themselves or with each other to create endless opportunities. These table shapes are now a common product among North American manufacturers however it was MityBilt that originally designed and introduced these iconic shapes into the market encouraging student collaboration and idea sharing.

Zenith

Designed to excel where other desks fail. Its ultimate simplicity and durability makes it a winner in every situation. The Zenith desk is suitable for every student's need, with storage, work surface and adjustable height options all integrated around the proven frame of Zenith.

The Zenith standing height desks are incomparable.

Standing is a great way to eliminate fidgeting, which thereby improves the learning experience. Standing up not only improves focus and learning, it can help decrease obesity. - **New York Times**

Sonic

The Sonic desk is a great option for the budget conscious purchaser. Filled with accessories, this desk is a great option for the busy classroom!

Features

- Maple laminate
- Plastic Book Bo
- Charcoal edge and frame
- Bag Hook
- Adjustable frame 22-30
- Pencil

SONIC **STUDENT DESK**

General Purpose

Canada's Toughest Table... Serious. When it comes to rugged durability the Classic table stands alone, offering exceptional strengths that an industrious environment demands. We created the Classic the obvious way... first we listened to you, then we designed ours. Classic.

Top

- 1" thick 45lb high density particle board
- High pressure scratch resistant laminate
- Chewing gum resistant table backing
- 3mm vinyl bonded edge-band

CLASSIC Frame

- 16 gauge 2" x 1" steel tube
- 16 gauge 1.25" x 1.25" square legs
- Fully welded construction
- Fixed 29.5" high
- Optional Locking swivel castors
- Ships fully assembled

RTA Frame

- 16 gauge 2"x 1" steel tube
- 16 gauge 2"round legs
- Engineered corner bracket with bolt on leg
- Adjustable height legs 17-25" or 22-30"
- Optional locking swivel castors
- Ships knocked down

Lift 'n' Shift Tables

The Easy to handle, Quick to set out, Dynamic in use, Compact to store. Lift 'n' Shift dining units are compact and versatile – ideal for rapid setup in dining spaces and small group areas. They are compact and easy to move through doorways and within rooms. A carefully considered seat to table top proportion ensures a comfortable seating position. No hinge points to trap fingers, no mechanism to service and safe to use.

PROFESSOR DESK

The professor desk is designed to satisfy the requirements of today's hard-working teachers. The integrated adjustable height surface is ideal for use as a 'Lap-top' table, a 'gathering point' for one-on-one discussions or as a presentation podium. The podium is standard with a marker board laminate that encourages brain storming and sharing of ideas.

Part Number	Size (in.)	Podium (in.
PROF3060.L	30 x 60	24 dia.
PROF3072.L	30 x 72	24 dia.
PROF3060.R	30 x 60	24 dia.
PROF3072.R	30 x 72	24 dia.

Optional right or left hand podium position.

CONCOURSE DESK

The teacher desk is often perceived as a barrier between the teacher and the students. After listening to teacher requests for a more 'user friendly' and 'student engaging' solution, the Concourse Desk emerged. The design overcomes the barrier by providing a marker board surface gathering point for students encouraging 'round table' discussions.

Rave

The position of ultimate comfort while sitting is uniquely different for each and every student. With a pleasing design, flexible backrest and lumbar curvature, the ergonomic design of the Rave chair has addressed this challenge through providing four different seating positions; Forward-facing, Rear-facing or by sitting over the left or right side of the chair. This freedom of posture allows your students to remain in a healthy and comfortable seated position throughout the day.

Shell

- Single piece shell
- Concealed hardwar
- Reinforced plastic with flexible backrest
- Designed for movement while providing lumbar support

Frame

- Fully welded construction
- Durable stainless steel finisl
- Non slip, non removable floor glides

Saddle

The SADDLE can be used by young or old, by large or small as one size fits all. Unlike alternative designs, the Saddle is injection-moulded as a single component for simplicity, durability and low cost.

The benefits of saddle stools have been recognized over many years and include:

- Comfort both when in use and after long periods of use. Saddle promotes a balanced and upright posture
- Saddle is mounted to a gas lift making it compatible with a wide range of work surface heights
- Stores usefully under a desk or table

Power Grommet

Power Grommet intuitively connects people with their technology, providing power without limitations. Conveniently integrated into most surfaces, the Power Grommet puts you in control of your power and data locations.

Specifications

- 2 Ports of 15A, 120V Tamper Resistant Power Receptacles
- 2 Ports of 2.1A/10.5W, 5VDC USB Charging Ports
- 72" Standard Cord with NEMA 5-15 Straight Plug

Power Tower

Equipped with twelve tamper resistant power receptacles and the latest USB-C technology, this free standing, full-service, power and charging station is offered in a combination of port configurations: USB, USB-C, or a combo of USB & USB-C. The Power Tower provides power and charging from 360 degrees, perfect for a variety of collaborative spaces. The sturdy metal shelves provide a proper resting place for all your devices. Additional slots in the base allow the unit to be tethered to the floor should mobility not be desired.

Specifications

- 12 Ports of 15A, 125VAC Tamper Resistant Power Receptacles
- 6 Ports of 5A/25W, 5VDC USB and/or USB-C Charging Ports
- 108" Standard Cord with NEMA 5-15 Straight Plug

Environ

MityBilt developed the Aktivity Environ table for a more 'natural look'. This table is offered with high pressure wood grain laminate and matching 3mm edge-band. What sets this series aside from the rest, is its leg design. Take a moment to check it out. This includes a 2" diameter adjustable height leg with a solid wood insert. Available in maple, Oak and Cherry, it also has the appeal of a solid wood table...but without the price tag.

BILINGUAL CANADA MAP TABLE

This high quality custom designed educational table will certainly be the envy of every teacher across the country! The unique and colourful Canada Map table takes advantage of the fact that geography is spatial, and provides a fun place for students to learn about the important areas of their country. Children learn best through engaging as a group and learning by doing. As students explore the Canada Map table, they build a permanent mental picture of their country and where important points are in relation to each other, and how they are connected. This high quality graphic printing is encapsulated in a high pressure laminate surface and is extremely resistant to everyday use.

USA MAP TABLE

The USA Map table is designed and produced exclusively by MityBilt, be assured, you will find it nowhere else! This table helps students learn their states, their capitals, major physical features, and important routes that establish connections between parts of the country. Students will obtain a memorization of state names and capitals in a way that will make U.S. geography more meaningful for them. They will have an increased understanding of where states are in relation to each other, and the physical characteristics of each region. Students will have a permanent mental picture of their country in their heads, so that anything they learn about their country can immediately be related to a place. The MityBilt USA Map table does just that!

ROAD MAP TABLE

Children love to explore the streets of their town, especially on this road table set. Providing unlimited educational and play adventures, it helps them to develop motor skills while driving their own cars to school and stores, to the airport, the beach, the farm and all around town. Fly out of the airport on vacation or take a field trip to the farm.
