EDUCATIONAL FURNITURE CATALOGUE

MITYBILT

PROUDLY CANADIAN

MityBilt is a Canadian-owned and operated business based in Stonewall, Manitoba. We manufacture our products in-house using raw materials sourced entirely from the resources available in Canada. As a responsible manufacturer, we ensure you are a top priority by offering competitive lead times, pricing, and exceptional products.

ENVIRONMENTALLY CONSCIOUS

At MityBilt, we produce our products with two things in mind: our clients and the environment. We practice eco-friendly manufacturing procedures to reduce our Carbon Footprint by using materials from Eco-sustainable sources. That includes a guaranteed recycled content, green guard laminates, low formaldehyde emission core materials, water-based adhesives, and paint finishes containing no Volatile Organic Compounds (VOCs). We aim to play our part in conserving the Earth's resources without sacrificing the products we put out. It's our responsibility to minimize the impact we have on the environment. While we strive to be your top educational furniture provider, we will not sacrifice our environment to achieve it.

LIMITED LIFETIME WARRANTY

MityBilt is known for the quality and durability of its educational furniture, surpassing expectations, and engineering exceptional products. For this reason, MityBilt offers a Limited Lifetime Warranty on tables, desks, study carrels, benches, stools, and storage units. If your furniture has any manufacturing defects in the material or workmanship, we will repair or replace it free of charge.

INSTOK PRODUCTS

Our InSTOK catalogue fulfills your most urgent furniture requirements shipping within 5-10 business days. To qualify, all items on the order must be exclusively InSTOK products using their unique product number, which must be reflected on the PO at the time of ordering.

Look for the InSTOK logo throughout the catalogue to identify which products qualify.

MITYBILT STANDARDS

SUPERIOR TABLE EDGE TREATMENT

MityBilt includes a premium 3mm vinyl bonded edge-band on all tables and desks. This edge is bonded under high pressure, heat and glue and is a superior seal against the table core minimizing germs and increasing longevity. The 3mm vinyl bonded edge-band adds significant strength to the top and far exceeds the common T-mold edge that is easily removed by zealous students! The 3mm vinyl bonded edge also has a greater radius than T-mold edging making it more comfortable to work at and safer in high traffic areas. 3mm vinyl bonded edge-band is specified in healthcare environments for its security and cleanliness. Typically this edge type is an upgrade; however, at MityBilt we've made it our standard.

- Secure
- Hygienic
- Applied under high pressure and hot glue
- Sealed edge conforming to Green Guard Gold
- Comfortable 3mm radius conforming to CGSB standards

METAL-TO-METAL FIXTURES

Located in a drilled hole, the external threaded protrusions of the D-nut lock into the wood, preventing it from either turning or pulling out. The threaded metal insert adds great strength and security and is a permanent fixture in the table top. It allows the table leg to be attached with machine screws which can be inserted and removed multiple times without losing the integrity of the fixing or weakening the wooden table top. This table leg fixing method also allows for quicker table assembly.

CHEWING GUM RESISTANT BACKING

After consulting with educators and maintenance staff, we kept hearing the same complaints about furniture. The number 1 complaint was the awful chore of attempting to remove chewing gum from underneath tables and desks. MityBilt listened and responded by introducing a Chewing Gum Resistant backing. As of 2017, a chewing gum resistant material was added to the underside of all tables and desks. This specially formulated backer doesn't allow the gum to adhere to the surface making cleaning tables a breeze and increasing school hygiene!

AKTIVITY

Activity meets the needs of any dynamic classroom. Multiple shapes and sizes can be combined to create a functional and creative layout. With adjustable legs, numerous finishes and other custom options, such as casters, Activity tables are versatile. Make the difference with Activity.

SPECIFICATIONS

Table Top Features

- 1" thick 45lb high density industrial grade particle board
- High pressure scratch resistant laminate
- Chewing gum resistant table backing
- 3mm vinyl bonded edgeband
- Rounded corners for safety

Frame Features

- 16 Gauge steel tube legs
- Standard 1.25" Activity legs
- Optional 2" Espire legs (Tables shown with Espire legs)
- Fully welded leg construction with laser cut support bracket
- Metal-to-metal fixtures
- Adjustable floor glides
- Durable powder coat finish

For an easier and quicker set up or takedown, try pairing our tables with Espire Folding Legs

GUIDED READING

Guided reading is a strategy that helps students become better readers. Although guided reading has been traditionally associated with primary grades it can be modified and used successfully in all grade levels. When the proper books are selected, students are able to read with approximately 90% accuracy. This enables the students to enjoy the story to its fullest capacity learning how to make meaning from print.

AKTIVITY HORSESHOE

Provides table space for teaching material and still keeps close contact with the students.

Table Size	Product Code	
	Aktivity 1.25"	Espire 2"
48" x 60"	AT4860HORS	E4860HORS.AH
60" x 66"	AT6066HORS	E4860HORS.AH

Did you know? Our markerboard laminate is available for use on any of our tables and desks!

MARKERBOARD

Available in any shape with any colour legs and edge. The Markerboard Idea Table is great for sharing your ideas and thoughts on. Effectively promote creativity and mental engagement. Awesome for a quick game of X's and O's!

Popular Styles:

48" x 96"	AT4896KID	E4896KID.AH

CONEKT

The concept of collaborative learning, the grouping and pairing of students for the purpose of achieving an academic goal, has been widely researched and advocated. The term “collaborative learning” refers to an instruction method in which students at various performance levels work together in small groups toward a common goal. The students are responsible for one another’s learning as well as their own. Thus, the success of one student helps other students to be successful. The active exchange of ideas within small groups not only increases interest among the participants but also promotes critical thinking.

POZE

Poze is a modern take on classroom tables, providing a versatile desk for both students and educators. Providing a minimal structure design, the cantilever frame is ideal for reducing the visual clutter in the classroom. Each desk can be customized to the individual's height by choosing between fixed or adjustable height options.

SPECIFICATIONS

Table top features

- 1" thick 45lb high density industrial grade particle board
- High pressure scratch resistant laminate
- Chewing gum resistant table backing
- 3mm vinyl bonded edge band
- Rounded corners for safety

Frame Features

- Cantilever style frame
- 2" diameter column
- Standard 30" fixed height
- Fully welded laser cut base
- Two casters and non removable adjustable glides
- Durable powder coat finish

ACOUSTIC FIRST NATIONS**

THE MEDICINE WHEEL TABLE

The Medicine Wheel assists to create guided conversation about the First Nations core values. Inspired by those from the past, it depicts the circle of life. Each quadrant reminds us to remain balanced in all four aspects of our being – spiritual, emotional, physical and mental. Other teachings of the Medicine Wheel focus on developmental stages relating to the four elements – Earth, Water, Air and Fire.

RAVE

The position of ultimate comfort while sitting is uniquely different for each and every student. With a pleasing design, flexible backrest and lumbar curvature, the ergonomic design of the Rave chair has addressed this challenge through providing four different seating positions; Forward-facing, Rear-facing or by sitting over the left or right side of the chair. This freedom of posture allows your students to remain in a healthy and comfortable seated position throughout the day.

SPECIFICATIONS

Shell Features

- Single piece shell
- Concealed hardware
- Reinforced plastic with flexible backrest
- Designed for movement while providing lumbar support

Frame Features

- Fully welded construction
- Durable stainless steel finish
- Non slip, non removable glides
- Metal-to-metal fastening system

Rave Chair Sizes

Our quick and easy guide to help you choose the correct chair size for your learning environment.

ERGO

The Ergo shells promote good posture by encouraging an 'open' seating position. This is known to ease pressure on the lower back and reduces the propensity for spinal curvature.

SPECIFICATIONS

Seat Features

- One piece molded seat shell for additional strength
- Concealed seat fixings to eliminate weak points and seat cracking
- Waterfall front edge to relieve pressure on legs

Frame Features

- 360 degree swivel
- 5-Star mobile base
- Gas lift adjustable height

ERGO TASK

Chair Height	Product Code
14" - 19"	ERTASK1419

SADDLE

The Saddle can be used by young or old, by large or small as one size fits all. Unlike alternative designs, the Saddle is injection-molded as a single component for simplicity, durability and low cost.

SPECIFICATIONS

Seat Features

- Durable plastic saddle shaped seat
- Available in charcoal finish

Frame Features

- 360 degree swivel
- Gas lift adjustable height
- 5-star mobile base

Benefits of the Saddle stool

- Promotes a balanced and upright posture
- Reduction in back pain
- Prevents excessive strain whilst twisting
- Saddle is mounted to a gas lift making it compatible with a wide range of work surface heights
- Stores usefully under a desk or table

SADDLE TASK

ENVIRON

MityBilt developed the Aktivty Environ table for a more 'natural look'. This table is offered with high pressure wood grain laminate and matching 3mm edge-band. What sets this series aside from the rest, is its leg design. Take a moment to check it out. This includes a 2" diameter adjustable height leg with a solid wood insert. Available in maple and Oak, it also has the appeal of a solid wood table...but without the price tag.
