PROUDLY CANADIAN

MityBilt is a Canadian-owned and operated business based in Stonewall, Manitoba. We manufacture our products in-house using raw materials sourced entirely from the resources available in Canada. As a responsible manufacturer, we ensure you are a top priority by offering competitive lead times, pricing, and exceptional products.

ENVIRONMENTALLY CONSCIOUS

At MityBilt, we produce our products with two things in mind: our clients and the environment. We practice eco-friendly manufacturing procedures to reduce our Carbon Footprint by using materials from Eco-sustainable sources. That includes a guaranteed recycled content, green guard laminates, low formaldehyde emission core materials, water-based adhesives, and paint finishes containing no Volatile Organic Compounds (VOCs). We aim to play our part in conserving the Earth's resources without sacrificing the products we put out. It's our responsibility to minimize the impact we have on the environment. While we strive to be your top educational furniture provider, we will not sacrifice our environment to achieve it.

LIMITED LIFETIME WARRANTY

MityBilt is known for the quality and durability of its educational furniture, surpassing expectations, and engineering exceptional products. For this reason, MityBilt offers a Limited Lifetime Warranty on tables, desks, study carrels, benches, stools, and storage units. If your furniture has any manufacturing defects in the material or workmanship, we will repair or replace it free of charge.

MITYBILT STANDARDS

Superior Table Edge Treatment

MityBilt includes a premium 3mm vinyl bonded edge-band on all tables and desks. This edge is bonded under high pressure, heat and glue and is a superior seal against the table core minimizing germs and increasing longevity. The 3mm vinyl bonded edge-band adds significant strength to the top and far exceeds the common T-mold edge that is easily removed by zealous students! The 3mm vinyl bonded edge also has a greater radius than T-mold edging making it more comfortable to work at and safer in high traffic areas.

3mm vinyl bonded edge-band is specified in healthcare environments for its security and cleanliness. Typically this edge type is an upgrade; however, at MityBilt we've made it our standard.

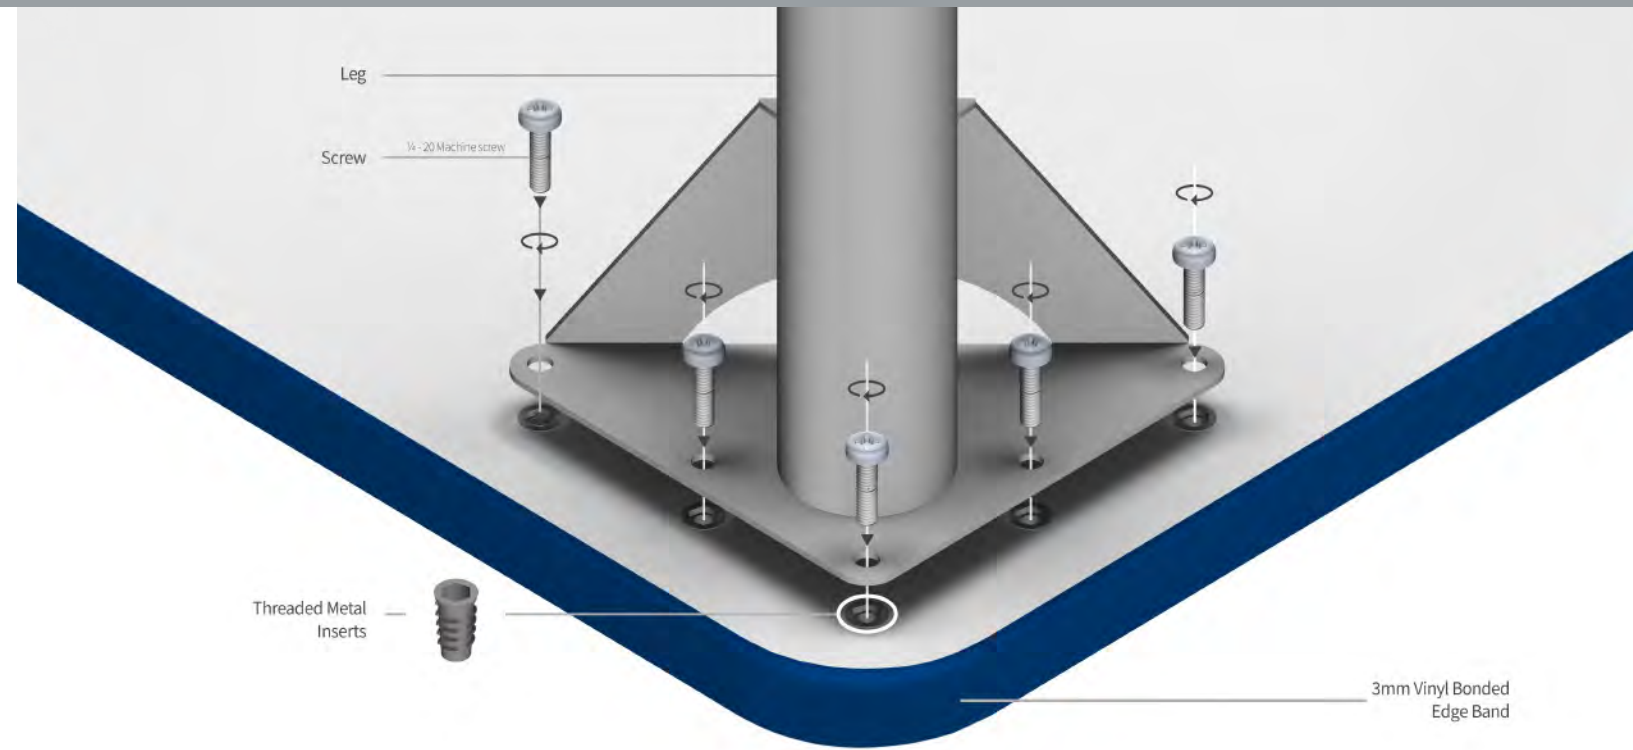

- Comfortable 3mm radius conforming to CGSB standards
- Sealed edge conforming to Green Guard Gold
- Applied under high pressure and hot glue
- Hygienic
- Secure

Chewing Gum Resistant Backing

After consulting with educators and maintenance staff, we kept hearing the same complaints about furniture. The number 1 complaint was the awful chore of attempting to remove chewing gum from underneath tables and desks. MityBilt listened and responded by introducing a Chewing Gum Resistant backing.

A chewing gum resistant material was added to the underside of all tables and desks. This specially formulated backer doesn't allow the gum to adhere to the surface making cleaning tables a breeze and increasing school hygiene!

Metal-To-Metal Fixtures

Located in a drilled hole, the external threaded protrusions of the D-nut lock into the wood, preventing it from either turning or pulling out. The threaded metal insert adds great strength and security and is a permanent fixture in the table top. It allows

the table leg to be attached with machine screws which can be inserted and removed multiple times without losing the integrity of the fixing or weakening the wooden table top. This table leg fixing method also allows for quicker table assembly.

GREENGUARD Gold Certified

At MityBilt we think twice about what we do and how we do it. While our aim is to become your preferred table provider, we don't want to sacrifice the environment to achieve this. We take the responsible view that it's on all of us to play our part in conserving the Earth's resources and to prevent damage to the environment around us.

Using material from Eco-sustainable sources, including a guaranteed recycled content, green guard laminates, low formaldehyde emission core materials, water based adhesives and paint finishes containing no Volatile Organic Compounds (VOCs), all reduce the Carbon Footprint of our products. Unavoidable manufacturing waste is recycled wherever possible.

Effective care for the environment involves working with others; it needs everyone to aim for the same goal. We want to work with you and your clients to provide responsible solutions for their furniture needs, and to minimize the impact on the environment.

The MityBilt environmental policy proves itself in three key areas:

- Sourcing environmental preferable materials
- Eco-friendly manufacturing practices
- Recycling of waste material

All MityBilt tables and desks conform with the most stringent indoor air quality standards by exceeding the obligations of Green Guard Gold Environmental Requirements.

COLLABORATIVE LEARNING TABLES

In small groups, students share strengths, overcome their weaker skills, develop their interpersonal skills and also learn to deal with conflict. When cooperative groups are guided by clear objectives, students engage in numerous activities that improve their understanding of subjects explored.

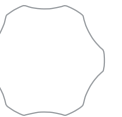

AKTIVITY PUDDLE

Size (dia.)	Product Code

AKTIVITY FLOWER

Size (dia.)	Product Code	
	Aktivity 1.25"	Espire 2"
60"	AT60FLR	E60FLR.AH

GUIDED READING

Guided reading is a strategy that helps students become better readers. Although guided reading has been traditionally associated with primary grades it can be modified and used successfully in all grade levels. When the proper books are selected, students are able to read with approximately 90% accuracy. This enables the students to enjoy the story to its fullest capacity learning how to make meaning from print.

AKTIVITY HORSESHOE

Provides table space for teaching material and still keeps close contact with the students.

Size	Product Code	
	Aktiviti 1.25"	Espire 2"
48" x 60"	AT4860HORS	E4860HORS.AH
60" x 66"	AT6066HORS	E6066HORS.AH

AKTIVITY C-SHAPE

Ideal for close interaction between the teacher and students.

Size	Product Code	
	Aktiviti 1.25"	Espire 2"
36" x 60"	AT3660C	E3660C.AH
48" x 72"	AT4872C	E4872C.AH
48" x 96"	AT4896C	E4896C.AH

AKTIVITY KIDNEY

The traditional 'group learning table' with plenty of work surface area.

Size	Product Code	
	Aktiviti 1.25"	Espire 2"
36" x 60"	AT3660KID	E3660KID.AH
48" x 72"	AT4872KID	E4872KID.AH
48" x 96"	AT4896KID	E4896KID.AH

AKTIVITY BEAN

Provides more flexibility with large surface area and allows close contact with the students.

Size	Product Code	
	Aktiviti 1.25"	Espire 2"
84" x 42"	AT8442BEAN	E8442BEAN.AH

CONEKT

The concept of collaborative learning, the grouping and pairing of students for the purpose of achieving an academic goal, has been widely researched and advocated. Students at various performance levels work together in small groups toward a common goal and are responsible for one another's learning as well as their own. Thus, the success of one student helps other students to be successful. The active exchange of ideas within small groups not only increases interest among the participants but also promotes critical thinking.

MARKERBOARD

Available in any shape with any colour legs and edge. The Markerboard Idea Table is great for sharing your ideas and thoughts on. Effectively promote creativity and mental engagement. Awesome for a quick game of X's and O's!

Did you know? Our markerboard laminate is available for use on any of our tables and desks!

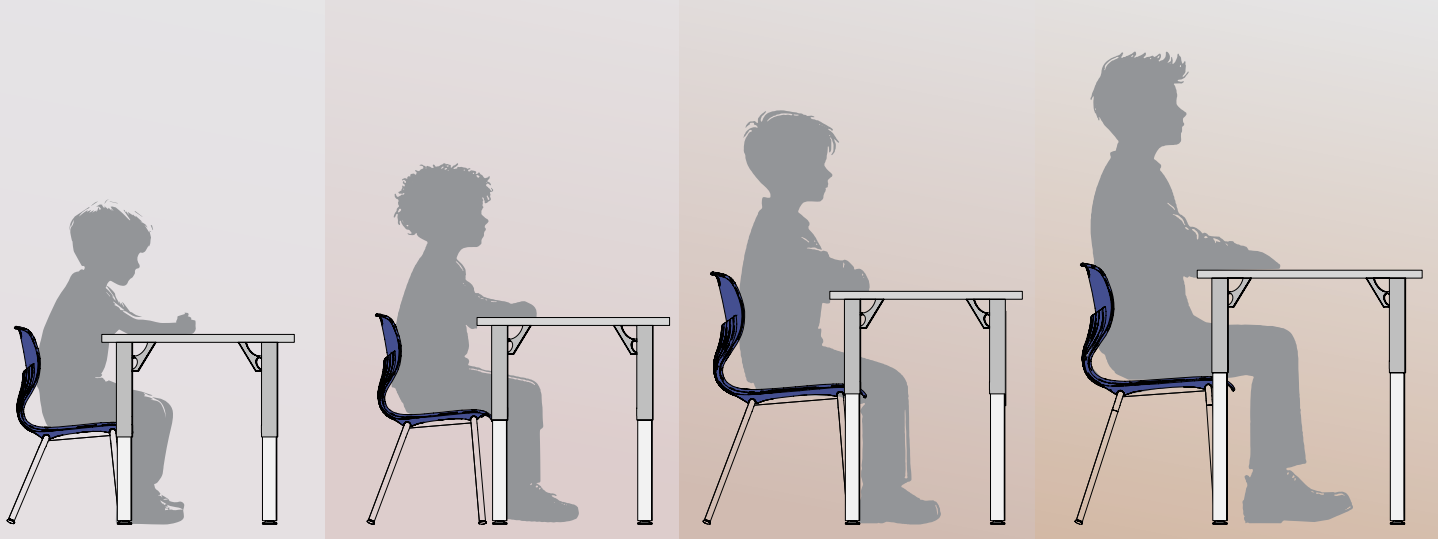

HEIGHT GUIDE

Enhancing student outcomes can be achieved by simply improving the quality of the learning environment. Selecting appropriately sized furniture is a key factor in positively influencing these environments. It is essential that chairs and tables are suitably sized for children's age and height, considering the average height range for each age group.

When selecting chairs, prioritize comfort, followed by factors like mobility (including stackability, the presence of castors, and adjustability), and design. A vital guideline for a healthy posture is ensuring that a seated child's feet can touch the floor, with knees ideally forming a 90-degree angle.

Tables, like chairs, should facilitate a comfortable and relaxed posture. This involves ensuring sufficient space under the table (typically 7"-10" from the tabletop) for knee clearance and allowing the elbows to rest easily on the table.

Chair Height	12"	14"	16"	18"
Table Height	22"	24"	27"	29.5"
Adjustable Table Height	17-25"	22-30"	22-30"	22-30"
Adjustable Standing Table Height	24-36"	30-42"	30-42"	30-42"

Percentage of Students Per Class

TEAM

Students working together in small groups towards a common goal take responsibility for one another's learning as well as their own. Thus, the success of one student helps other students to be successful. Team desks are great for in-depth personal study or for coordinating the energy of effective group learning.

POZE

Poze is a modern take on classroom tables, providing a versatile desk for both students and educators. Providing a minimal structure design, the cantilever frame is ideal for reducing the visual clutter in the classroom. Each desk can be customized to the individual's height by choosing between fixed or adjustable height options.

Specifications

Table Top Features

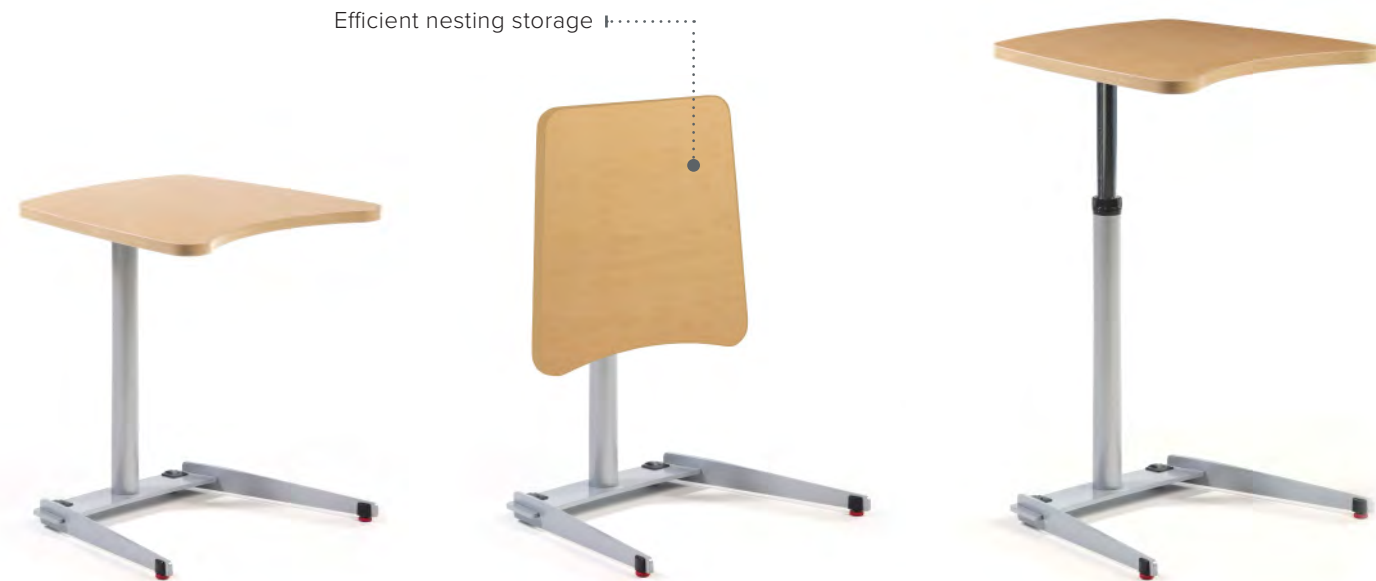

- 1" thick 45lb high density industrial grade particle board
- High pressure scratch resistant laminate
- Chewing gum resistant table backing
- 3mm vinyl bonded edge band
- Rounded corners for safety

Frame Features

- Cantilever style frame
- 2" diameter column
- Standard 30" fixed height
- Fully welded laser cut base
- Two casters and non removable adjustable glides
- Durable powder coat finish

Options

- Adjustable Height
- Standing Height
- Markerboard Finish
- Tote Trays

ULTRA PLUS

Ultra Plus allows for the creation of a continual work surface and integral wire management, which is popular in both the office and IT environments. Each table frame gangs to a common supporting leg, creating extra work area without cluttering floor space and jeopardizing leg room with unnecessary supports.

Specifications

Table Top Features

- 1" thick 45lb high density particle board
- High pressure scratch resistant laminate
- Chewing gum resistant table backing
- 3mm vinyl bonded edge-band
- Rounded corners for safety

Frame Features

- Deep Drawn base with floor leveler
- Aesthetic cover to leg component
- Modular construction
- Integral wire management
- Adjustable floor glides
- Silver powder coat finish
- Fixed height 29.5"

Options

-  Cable Grommet
-  Power-Data
-  Modesty Panel
-  Keyboard Tray
-  CPU Holder

Ideal computer table thanks to its cable management and optional CPU holder.

INDIGENOUS INSPIRED FURNITURE

MityBilt was started 30 years ago by a visionary who realized that educational furniture was not meeting the requirements of Indigenous communities. MityBilt designed a range of educational furniture that incorporated benefits that has made it the choice of Indigenous schools across Canada. Our Indigenous customer values are still embodied in the contemporary and durable furniture for today's 21st Century Classroom.

MityBilt included both colour and shape into our furniture knowing the importance of these features to our Indigenous customers. MityBilt provides a wide choice of colours and shapes for both soft and hard furnishings.

MEDICINE WHEEL

Medicine Wheel assists to create guided conversation about the Indigenous core values. Inspired by those from the past, it depicts the circle of life. Each quadrant reminds us to remain balanced in all four aspects of our being – spiritual, emotional, physical and mental. Other teachings of the Medicine Wheel focus on developmental stages relating to the four elements – Earth, Water, Air and Fire.

Different nations interpret the Medicine Wheel differently. Each of the 4 Directions (North, East, South & West) is typically represented by a distinctive colour, such as white, red, yellow and black. The Medicine Wheel Table is an exclusive product by MityBilt that combines all four sections together as one solid table top.

MEDICINE WHEEL TABLES

SEATING

Rave Chair Sizes

Our quick and easy guide to help you choose the correct chair size for your learning environment.

Chair Height	12"	14"	16"	18"
--------------	-----	-----	-----	-----

Percentage of Students Per Class

Pre K	100%			
Kindergarten	50%	50%		
Grade 1		100%		
Grade 2		25%	75%	
Grade 3-4			100%	
Grade 5			50%	50%
Grade 6-12				100%

RAVE

The position of ultimate comfort while sitting is uniquely different for each and every student. With a pleasing design, flexible backrest and lumbar curvature, the ergonomic design of the Rave chair has addressed this challenge through providing four different seating positions; Forward-facing, Rear-facing or by sitting over the left or right side of the chair. This freedom of posture allows your students to remain in a healthy and comfortable seated position throughout the day.

Specifications

Shell Features

- Single piece shell
- Concealed hardware
- Reinforced plastic with flexible backrest
- Designed for movement while providing lumbar support

Frame Features

- Fully welded construction
- Polished stainless steel
- Non slip, non removable glides

STORAGE

BOOKSTOR

The BookSTOR is for creative and innovative minds – a space structuring storage system that creates variable areas for contemporary work. BookSTOR transforms traditional shelving systems and can be used as a room divider to create spaces and storage areas while serving as a visual and acoustic screen. BookSTOR is available in straight and curved elements with shelves, cubbies and totes. BookSTOR works hand in hand with Juice Soft Seating creating the perfect quiet work environment for students that want to get ahead.

Specifications

Features

- 1" thick 45lb high density particle board construction base with 3/4" shelves and gables
- 3mm vinyl bonded edgeband
- Fully welded steel sub-frame
- Oversize locking swivel castors
- Magnetic perforated steel back panel
- Durable powder coat finish
- Integral handle for easy maneuvering
- Flush mount for classroom safety
- Adjustable shelves with safety clip support

Combine BookSTOR Twist units with Juice Twists or Aktivty Crescent tables to create endless learning space configurations.

GLIDE & TILT TRAY DESIGN

A pioneering design, the 'Glide & Tilt™ Runner Module' with integrated 'Arrestor & Tilt' feature holds the tray in an angled open position, making easy access and clear display of the tray contents. This feature allows the tray to stop in the open position without falling out of the storage unit and yet by a simple maneuver the tray can be easily withdrawn from the unit.

METAL SYSTEMSTOR

Metal Storage Units. Fully welded steel SystemSTOR units. All units ship assembled complete with tray colours and depths of your choice. Do you prefer fixed or mobile with locking casters or single or double depth trays or both? The choice is yours at no additional cost!

ENVIRON

MityBilt developed the Aktivty Environ table for a more 'natural look'. This table is offered with high pressure wood grain laminate and matching 3mm edge-band. What sets this series aside from the rest, is its leg design. Take a moment to check it out. This includes a 2" diameter adjustable height leg with a solid wood insert. Available in maple and Oak, it also has the appeal of a solid wood table...but without the price tag.
