MADE IN CANADA

Designed & Made in Canada

100% CANADIAN OWNED AND OPERATED

MityBilt is 100% Canadian owned and operated, headquartered in Stonewall, Manitoba. We draw on the strength of Canadian resources and craftsmanship to create educational furniture that's functional, durable, and made entirely from Canadian-sourced materials. Our dedicated in-house team ensures full control over quality and delivery, allowing us to respond dynamically to evolving classroom needs – adapting quickly without compromising excellence.

About MITYBILT

LEADING IN EDUCATIONAL DESIGN

For many years, MityBilt has been a leader in designing educational tables with innovative shapes. In the late 90's the MityBilt "Guided Reading Table" was a best seller as MityBilt was the first Canadian manufacturer to introduce it in a range of different sizes and exciting colours. These tables are now known as the C-Shape, Kidney and Horseshoe shape. Then in the early 2000's MityBilt introduced a range of collaborative shape tables known as the "Conekt Linx" range. These 5 distinct shapes can be configured with themselves or with each other to create endless opportunities. These table shapes are now a common product among Canadian manufacturers however it was MityBilt that originally designed and introduced these iconic shapes into the market encouraging student collaboration and idea sharing.

COMMITTED TO SUSTAINABILITY

We believe in creating impact without leaving one behind. That's why every MityBilt product is designed with both people and the planet in mind. From responsibly sourced recycled materials and low-emission cores to water-based adhesives and VOC-free finishes, our production practices are carefully aligned with environmental sustainability. As part of this commitment, all our desks and tables exceed GREENGUARD Gold standards for indoor air quality – ensuring safe, healthy learning environments for students and educators alike.

LIMITED LIFETIME WARRANTY

At MityBilt, we engineer furniture with quiet confidence and lasting value. Our products are built to withstand the rigors of everyday use while supporting the evolving needs of educational spaces. Every piece of MityBilt furniture is built with care, tested by time, and backed by our Limited Lifetime Warranty. From desks and tables to benches and storage units, we engineer with durability at the forefront – so educators can focus on shaping the future, not replacing furniture.

OUR MISSION

To evolve the student learning space that produces lifelong learners that go on to build thriving communities

OUR GOAL

Impacting the success of 20 million students through innovative learning spaces by 2040

OUR VALUES

Dedicated

“All In All The Time”

Humble

“Quiet Confidence, BIG Impact”

Dynamic

“Adapt, Innovate, Dominate”

BookBEETL

BookBEETL is engineered for today's dynamic educational needs, offering an ideal blend of comfort and functionality. It is designed with a dual-purpose approach, offering both a neat storage solution and a dynamic seating. BookBEETL Mobile is agile and easy to move around thanks to its swivel castors while BookBEETL Rocker's sturdy construction allows for gentle rocking motions. This feature not only adds an element of fun but also promotes active sitting, encouraging kids to move and adjust their position as they sit.

FRAME FEATURES

- Industrial grade 3/4" melamine construction
- 3mm vinyl bonded edgeband
- Durable powder coat finish of the metal back panel
- Locking swivel castors

SEAT FEATURES

- 3" high density foam
- High resiliency fire retardant vinyl that exceeds 1,500,000 double rubs
- Sealed seams with heavy duty stitching

SystemSTOR Wood

Wood tone storage cabinets; all units ship assembled complete with tray colours and depths of your choice. Do you prefer fixed or mobile with locking castors or single or double depth trays or both? The choice is yours at no additional cost!

FRAME FEATURES

- Industrial grade ¾" melamine construction
- 3mm vinyl bonded edgeband
- Top provides a continual work surface when positioned together
- Standard with swivel castors

TRAY FEATURES

- Placement for name cards
- Plastic shatterproof trays
- Smooth surfaces for easy cleaning
- Ships fully assembled complete with trays

GLIDE & TILT TRAY DESIGN

A pioneering design, the 'Glide & Tilt'™ Runner Module' with integrated 'Arrestor & Tilt' feature holds the tray in an angled open position, making easy access and clear display of the tray contents. This feature allows the tray to stop in the open position without falling out of the storage unit and yet by a simple maneuver the tray can be easily withdrawn from the unit.

SystemSTOR is an adaptable, flexible, high-quality storage system. The trays are perfect to make the best use of space keeping your areas efficient, effective and looking good too.

Rave

The position of ultimate comfort while sitting is uniquely different for each and every student. With a pleasing design, flexible backrest and lumbar curvature, the ergonomic design of the Rave chair has addressed this challenge through providing four different seating positions; Forward-facing, Rear-facing or by sitting over the left or right side of the chair. This freedom of posture allows your students to remain in a healthy and comfortable seated position throughout the day.

SHELL FEATURES

- Single piece shell
- Concealed hardware
- Reinforced plastic with flexible backrest
- Designed for movement while providing lumbar support

FRAME FEATURES

- Fully welded construction
- Polished stainless steel
- Non slip, non removable floor saver glides

Saddle

The Saddle can be used by young or old, by large or small, as one size fits all. Unlike alternative designs, the Saddle is injection-molded as a single component for simplicity, strength, and lasting performance.

FRAME FEATURES

- 360 degree swivel
- Gas lift adjustable height
- 5-star mobile base

SEAT FEATURES

- Durable plastic saddle shaped seat
- Available in charcoal finish

BENEFITS OF THE SADDLE STOOL

- Promotes a balanced and upright posture
- Reduction in back pain
- Prevents excessive strain whilst twisting
- Saddle is mounted to a gas lift making it compatible with a wide range of work surface heights
- Stores usefully under a desk or table

HEIGHT GUIDE

Ergonomic Furniture for Learning Success

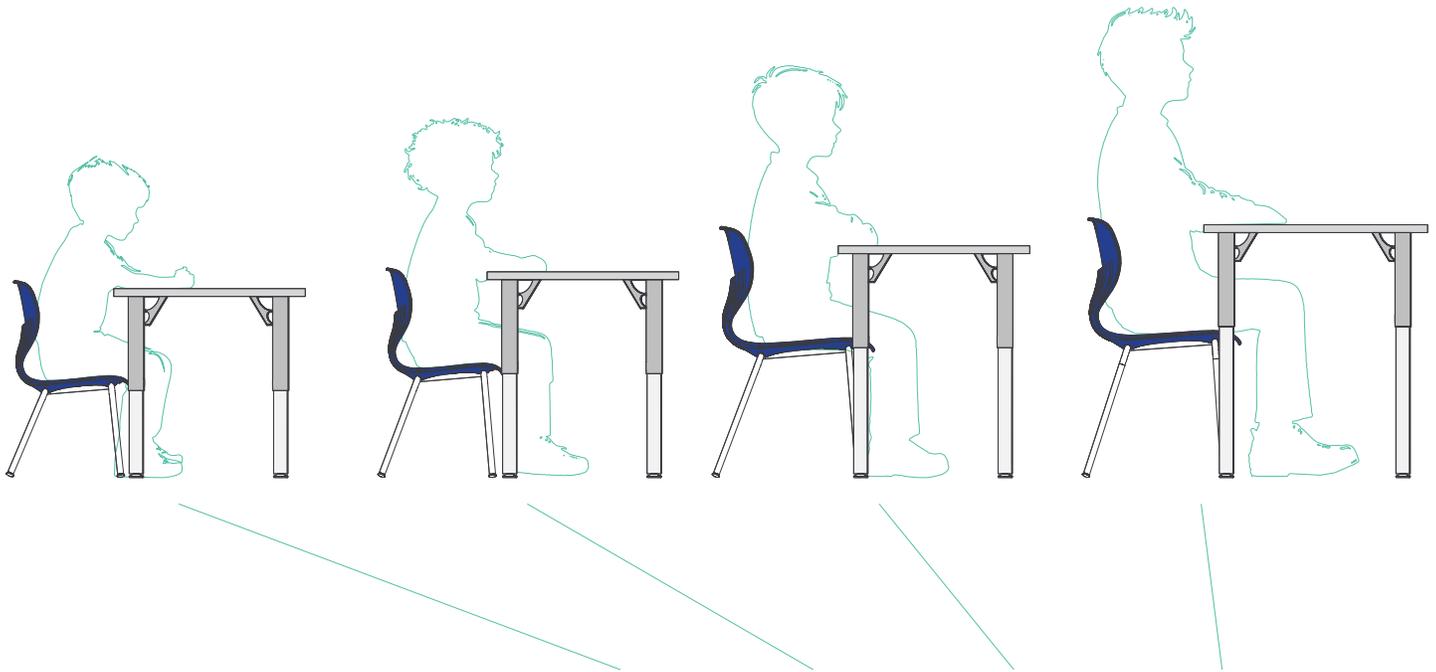

Enhancing student outcomes starts with a well-designed learning environment. Age-appropriate, ergonomic furniture promotes comfort, supports healthy posture, and helps students stay focused and engaged.

Chairs

Ensure chairs allow students' feet to rest flat on the floor with knees at a 90° angle. Prioritize comfort, mobility (e.g., stackability, castors), and adjustability.

Tables

Tables should provide 7–10 inches of clearance from the seat to the tabletop, allowing relaxed elbow placement and sufficient knee space.

Chair Height	12"	14"	16"	18"
Table Height	22"	24"	27"	29.5"
Adjustable Table Height	17-25"	22-30"	22-30"	22-30"
Adjustable Standing Table Height	24-36"	30-42"	30-42"	30-42"

Percentage of Students Per Class

- 2 castors .WB

Tapped at 1" intervals for adjustment

16 gauge steel tube

Secure Metal-to-Metal Leg Fastening

Our tables use metal-to-metal leg connections with threaded D-nuts for unmatched strength and durability. This smart system delivers a tight, long-lasting fit that can be reassembled repeatedly without degradation, while streamlining the assembly process – no wobbling, no wood damage, just solid construction.

Laser-Cut Gusset Brace

Our steel legs are fully welded and fitted with a laser-cut support bracket that serves as both a structural reinforcement and a precise mounting point – delivering superior structural integrity and enhanced stability compared to traditional wire braces. The result: a stronger, more durable table built to last.

- Standing height 30"–42" .SH
- Castors .CA
- 2 castors .WB

Durable 3mm Vinyl Edge-Banding

Every MityBilt table comes standard with a premium 3mm vinyl edge band – bonded with heat, pressure, and adhesive for a long-lasting, germ-resistant seal. Unlike T-mold edges that can peel or pop off, this edge treatment is tough, tamper-resistant, and built for high-traffic environments. With a smooth, rounded profile, it's also more comfortable and safer to work around. It's a healthcare-grade upgrade – standard on all our tables.

Chewing Gum Resistant Underside

We heard from educators: gum under desks is a constant hassle. So we fixed it. All MityBilt tables feature a special underside material that resists chewing gum adhesion, making cleanup faster and improving overall hygiene.

How to Specify a Model Number:

GUIDED READING

Designed to support focused, small-group instruction, guided reading tables create the ideal setting for guided reading across all grade levels. Their shapes promote close interaction between teacher and students – perfect for helping learners build reading confidence and comprehension. With the right books and setting, students can read with up to 90% accuracy, allowing them to fully engage with the material and develop deeper meaning-making skills. Our guided reading tables are built to foster connection, collaboration, and success.

Team

Students working together in small groups towards a common goal take responsibility for one another's learning as well as their own. Thus, the success of one student helps other students to be successful. Team desks are great for in-depth personal study or for coordinating the energy of effective group learning.

Ultra Plus

Ultra Plus allows for the creation of a continual work surface and integral wire management, which is popular in both the office and IT environments. Each table frame gangs to a common supporting leg, creating extra work area without cluttering floor space and jeopardizing leg room with unnecessary supports.

TABLE TOP FEATURES

- 1" thick 45lb high density particle board
- High pressure scratch resistant laminate
- Chewing gum resistant table backing
- 3mm vinyl bonded edge-band
- Rounded corners for safety

FRAME FEATURES

- Deep Drawn base with floor leveler
- Aesthetic cover to leg component
- Modular construction
- Integral wire management
- Adjustable floor glides
- Silver powder coat finish
- Fixed height 29.5"

INDIGENOUS INSPIRED FURNITURE

MityBilt was started 30 years ago by a visionary who realized that educational furniture was not meeting the requirements of Indigenous communities. MityBilt designed a range of educational furniture that incorporated benefits that has made it the choice of Indigenous schools across Canada. Our Indigenous customer values are still embodied in the contemporary and durable furniture for today's 21st Century Classroom.

MityBilt included both colour and shape into our furniture knowing the importance of these features to our Indigenous customers. MityBilt provides a wide choice of colours and shapes for both soft and hard furnishings.

Environ

MityBilt developed the Aktivty Environ table for a more 'natural look'. This table is offered with high pressure wood grain laminate and matching 3mm edge-band. What sets this series aside from the rest, is its leg design. Take a moment to check it out. This includes a 2" diameter adjustable height leg with a solid wood insert. Available in Maple and Oak, it also has the appeal of a solid wood table...but without the price tag.

TABLE TOP FEATURES

- 1" thick 45lb high density industrial grade particle board
- High pressure scratch resistant laminate
- Chewing gum resistant table backing
- 3mm vinyl bonded edgeband
- Rounded corners for safety

FRAME FEATURES

- 16 Gauge steel tube legs
- Standard Ø2" 17"-25" adjustable Environ legs with adjustable solid wood insert
- Fully welded leg construction with laser cut support bracket

Acoustic Series

Our Acoustic series provides a quiet retreat even in the midst of a noisy environment. The high quality acoustic panels absorb noise creating a quieter learning space. The structure is lightweight, durable and available in various colors.

FEATURES

- Noise Reduction Coefficient – NRC 0.85
- 100% Polyester (60% recycled P.E.T. fiber)
- Moisture resistant
- Can be modified to fit your existing tables or desks
- Stores flat
- Made in Canada
