

INDIGENOUS-INSPIRED FURNITURE

MITYBILT

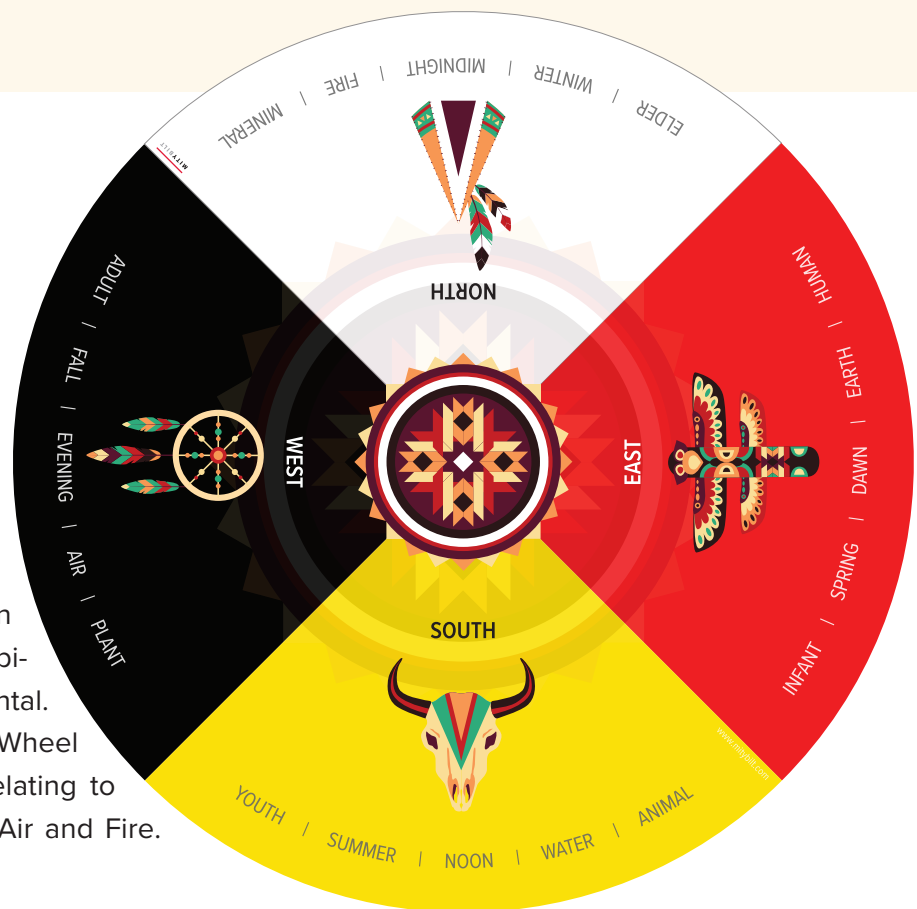

FIRST NATIONS INSPIRED FURNITURE

MityBilt was started 30 years ago by a visionary who realized that educational furniture was not meeting the requirements of First Nations communities. MityBilt designed a range of educational furniture that incorporated benefits that has made it the choice of First Nations schools across Canada. Our First Nations customer values are still embodied in the contemporary and durable furniture for today's 21st Century Classroom.

MityBilt included both colour and shape into our furniture knowing the importance of these features to our First Nations customers. MityBilt provides a wide choice of colours and shapes for both soft and hard furnishings.

MEDICINE WHEEL

Medicine Wheel assists to create guided conversation about the First Nations core values. Inspired by those from the past, it depicts the circle of life. Each quadrant reminds us to remain balanced in all four aspects of our being – spiritual, emotional, physical and mental. Other teachings of the Medicine Wheel focus on developmental stages relating to the four elements – Earth, Water, Air and Fire.

MEDICINE WHEEL TABLE

Different nations interpret the Medicine Wheel differently. Each of the 4 Directions (North, East, South & West) is typically represented by a distinctive color, such as white, red, yellow, and black, which for

some stands for the human races. The Medicine Wheel Table is an exclusive product by MityBilt that combines all four sections together as one solid table top.

MEDICINE WHEEL COLLABORATIVE TABLES

The concept of collaborative learning, the grouping and pairing of students for the purpose of achieving an academic goal, has been widely researched and advocated. The term “collaborative learning” refers to an instruction method in which students at various performance levels work together in small groups toward a common goal.

The students are responsible for one another’s learning as well as their own. Thus, the success of one student helps other students to be successful. The active exchange of ideas within small groups not only increases interest among the participants but also promotes critical thinking.

ACOUSTIC SACRED SEVEN

Many Indigenous organizations and communities have adopted the 7 guiding principles, in one form or another, as a moral stepping stone and cultural foundation. Despite where the teachings may have originated, they share the same concepts of abiding by a moral respect for all living things.

ACOUSTIC TREES

Experience the harmony of nature and improved acoustics with our Acoustic Trees. They're not just functional - they're also design pieces that make a statement. Our Acoustic Trees are made from 100% P.E.T. fiber, with 60% of it derived from recycled plastic water bottles, aiding in the reduction of ocean

waste. Our Acoustic Trees are lightweight and durable. They come in a range of colors to match any décor. They not only make your classrooms quieter, but also bring the calm of nature indoors, creating a more comfortable learning environment.
