

# VISUAL LEARNING CANADA MAP

Model: ENT48R.CAN

The unique and colourful Canada Map table takes advantage of the fact that geography is spatial, and provides a fun place for students to learn about the important areas of their country. Children learn best through engaging as a group and learning by doing. As students explore the Canada Map table, they build a permanent mental picture of their country and where important points are in relation to each other, and how they are connected.
